result is a touching intimate portrait of one of the most complex and popular politicians of our time a woman who through good times and bad has retained her essential humanity **Entrepreneurial Seoulite** Mihye Cho,2019-02-01

Entrepreneurial Seoulite might be read as a memoir on Hongdae based on the author's observations as a member of South Korea's Generation X During the 1990's Hongdae became widely known as a cool place associated with discourses on alternative music independent labels and club culture Today Hongdae is well known for its youth culture and nightlife as well as its gentrification Recent research on Korean culture approaches the K wave phenomenon from the perspectives of cultural consumption media analysis and cultural management and policy Meanwhile studies on Seoul have centered on its transformation as a global creative city Rather than examining the K wave or the city itself this book explores the experience of living through the city in transition focusing on the relationship between the ideology that justified engagement in capitalism and the subjectification process The book aims to understand the project to institutionalize a cultural district in Hongdae as a demonstration of the coevolution of ideologies and citizenship in a society undergoing rapid liberalization politically culturally and economically A cultural turn took place in Korea during the 1990s amid the economic prosperity driven by state led industrialization and the collapse of the military dictatorship due to democratization movements Cultural critiques emerging as an alternative to social movements proliferated to assert the freedom and autonomy of individuals against regulatory systems and institutions The nation was hit by the Asian financial crisis in 1997 and witnessed massive economic restructuring including layoffs stakeouts and a prevalence of contingent employment As a result the entire nation had to find new engines of economic growth while experiencing a creative destruction At the center of this national transformation Seoul has sought to recreate itself from a mega city to a global city equipped with cutting edge knowledge industries and infrastructures By juxtaposing the cultural turn and cultural creative city making Entrepreneurial Seoulite interrogates the formation of new citizen subjectivity namely the enterprising self in post Fordist Seoul What kinds of logic guide individuals in the engagement of new urban realities in rapidly liberalized Seoul culturally and economically In order to explore this query Mihye Cho draws on Weber's concept of the spirit of capitalism on the formation of a new economic agency focusing on the re configuration of meanings and seeks to capture a transformative moment detailing when and how capitalism requests a different spirit and lifestyle of its participants Likewise this book approaches the enterprising self as the new spirit of post Fordist Seoul and explores the ways in which people in Seoul internalize and negotiate this new enterprising self **The Radical Middle Class** Robert D. Johnston,2013-10-31 America has a long tradition of middle class radicalism albeit one that intellectual orthodoxy has tended to obscure The Radical Middle Class seeks to uncover the democratic populist and even anticapitalist legacy of the middle class By examining in particular the independent small business sector or petite bourgeoisie using Progressive Era Portland Oregon as a case study Robert Johnston shows that class still matters in America But it matters only if the politics and culture of the leading player in affairs of class the middle

class is dramatically reconceived This book is a powerful combination of intellectual business labor medical and above all political history Its author also humanizes the middle class by describing the lives of four small business owners Harry Lane Will Daly William U Ren and Lora Little Lane was Portland s reform mayor before becoming one of only six senators to vote against U S entry into World War I Daly was Oregon s most prominent labor leader and a onetime Socialist U Ren was the national architect of the direct democracy movement Little was a leading antivaccinationist The Radical Middle Class further explores the Portland Ku Klux Klan and concludes with a national overview of the American middle class from the Progressive Era to the present With its engaging narrative conceptual richness and daring argumentation it will be welcomed by all who understand that reexamining the middle class can yield not only better scholarship but firmer grounds for democratic hope

**The Law and Regulation of Franchising in the EU** Mark Abell,2013 Mark Abell s book argues that the European franchising market fails to reach its potential as it remains unregulated He supports this by analysing the historical legal and economic basics and risk attraction profiles of franchising to franchisors and franchisee compares the European situation to the highly developed regulatory regimes in the USA and Australia and moves through to proposing and drafting a new EU directive to bring greater certainty and stability to cross border franchising in the EU Comprehensively researched and very detailed this book is a worthy contribution to the literature on the subject Graham Cunningham Barrister Hardwicke Key features of this detailed and insightful work include Practical analysis from a leading authority in the field of franchising Examination of the impact of both franchise specific and general commercial law upon use of franchising in the EU Comparative legal analysis of the law of England Germany France the US and Australia Carefully constructed proposals for a franchise directive in the EU based on the vast experience of the author A draft text for the proposed directive The Law and Regulation of Franchising in the EU provides an in depth analysis of the regulatory environment for franchising in the EU Franchising in the EU comprises nearly 10 000 franchised brands and over 215 billion US 300 billion turnover per annum However compared to its scale in the US and Australia franchising is not realising its full potential in the EU and the author points to the lack of homogeneity across members states as a large part of the problem The book concludes by arguing for the adoption of a draft directive and proposes a draft directive which promotes market confidence in franchising provides pre contractual hygiene and imposes a mandatory taxonomy of rights and obligations This highly topical and comprehensive work will appeal to franchise lawyers and franchise academics as this is the first book that analyses the impact of EU and member state law upon the use of franchising in the EU
