Virtual College Scavenger Hunt Worksheet:

The Community College Library Janet Pinkley, Kaela Casey, 2022-04-13 Community colleges are a cornerstone of higher education and serve the unique needs of the communities in which they reside. In 2019, community colleges accounted for 41 percent of all undergraduate students in the United States. Community college librarians are engaged in meaningful work designing and delivering library programs and services that meet the needs of their diverse populations and support student learning. The Community College Library series is meant to lift the voices of community college librarians and highlight their creativity, tenacity, and commitment to students. The Community College Library Reference and Instruction collects research programs and new approaches to reference and instruction implemented by community college librarians around the U.S. Chapters include sample activities and materials and cover topics including using race-centered and trauma-informed practices in the reference interview, incorporating online workshops into an existing information literacy program, and using student-driven pedagogy to navigate the early stages of research. This book demonstrates the innovative and replicable ways community college librarians are meeting the information and research needs of their college population both in person and remotely, all while providing a safe, inclusive space for students to explore and learn. **Mastering the Transition to College** Michael C.
