the criminal justice system fail to protect against the harmful acts of well off people it also fails to remedy the causes of crime such as poverty This results in a large population of poor criminals in our prisons and in our media The authors contend that the idea of crime as a work of the poor serves the interests of the rich and powerful while conveying a misleading notion that the real threat to Americans comes from the bottom of society rather than the top Learning Goals Upon completing this book readers will be able to Examine the criminal justice system through the lens of the poor Understand that much of what goes on in the criminal justice system violates one s own sense of fairness Morally evaluate the criminal justice system s failures Identify the type of legislature that is biased against the poor Statement of Disbursements of the House United States.
