on this subject can meet everyone's needs but many lie to either end of spectrum to be really helpful At the low end there are the superficial ones that leave the readers confused or unsatisfied Those at the high end cover the subject with such thoroughness as to be overwhelming The present edition is primarily intended to serve the need to students preparing for B Tech M Tech and MCA courses This book is an outgrowth of our teaching experience In our academic interaction with teachers and students we found that they face considerable difficulties in using the available books in this growing academic discipline The authors simply presented the subjects matter in their own style and make the subject easier by giving a number of questions and summary given at the end of the chapter
