Geographies of Urban Governance Joyeeta Gupta, Karin Pfeffer, Hebe Verrest, Mirjam Ros-Tonen, 2015-08-08 With a current population inflow into cities of 200 000 people per day UN Habitat expects that up to 75% of the global population will live in cities by 2050 Influenced by forces of globalization and global change cities and urban life are transforming rapidly impacting human welfare economic development and urban regional landscapes This poses new challenges to urban governance while emerging city networks advancing geo technologies and increasing production of continuous data streams

require governance actors to re think and re work conventional work processes and practices This book has been written to enhance our understanding of how governance can contribute to the development of just and resilient cities in a context of rapid urban transformations It examines current governance patterns from a geographical and inclusive development perspective emphasizing the importance of place space scale and human environment interactions and paying attention to contemporary processes of participation networking and spatialized digitization The challenge we are facing is to turn future cities into inclusive cities that are diverse but just and within their ecological limits We believe that the state of the art overview of topical discussions on governance theories instruments methods and practices presented in this book provides a basis for understanding and analyzing these challenges *Designing Sustainable Cities in the Developing World* Georgia Butina Watson, 2016-04-22 Can conservation of the built heritage be reconciled with the speed of urban change in cities of the developing world What are the tools of sustainable design and how can communities participate in the design of the environments in which they live and work These are some of the questions explored within this innovative and richly illustrated book A wealth of examples drawn from Mexico Brazil Indonesia Egypt Saudi Arabia India and Myanmar demonstrate how rapid physical and social change has swept away historic urban quarters and the cultural heritage they represent Written in an accessible style the rich mix of concepts research methods analysis and practice based tools is designed for academics and professionals alike Leading academics Zetter and Watson have produced a fascinating book that is amongst the first to explore the concept of urban sustainability within the context of urban design in the developing world

**Rebel Streets and the Informal Economy** Alison Brown, 2017-02-24 Street trade is a critical and highly visible component of the informal economy linked to global systems of exchange Yet policy responses are dismissive and evictions commonplace Despite being progressively marginalised from public space street traders in the global south are engaged in spatial and political battlegrounds to reclaim space and claim de facto property rights over their place of work through quiet infiltration union power or direct action This book explores rebel streets the challenges faced by informal economy actors and how organised groups are seeking to reframe legal understandings to create new claims to space and urban rights The book sets out new thinking and a conceptual framework for improved understanding of the plural relationship between law rights and space for the informal economy the contest between traditional modernist and rights based approaches to development and impacts on the urban working poor With a focus on street trading the book seeks to reframe the legal context in which modern informal economies operate drawing on key areas of academic inquiry and case studies of how vendors are staking claim to urban rights The book argues for a reconceptualisation of legal instruments to provide a rights based framework for urban work that recognises the legitimacy of urban informal economies the scope for collective management of urban resources and the social value of public space as a site for urban livelihoods It will be of interest to students and scholars of geography economics urban studies development studies political studies and law **Planning**

**Sustainable Cities** Un-Habitat, 2016-05-13 Current urban planning systems are not equipped to deal with the major urban challenges of the twenty first century including effects of climate change resource depletion and economic instability plus continued rapid urbanization with its negative consequences such as poverty slums and urban informality These planning systems have also to a large extent failed to meaningfully involve and accommodate the ways of life of communities and other stakeholders in the planning of urban areas thus contributing to the problems of spatial marginalization and exclusion It is clear that urban planning needs to be reconsidered and revitalized for a sustainable urban future Planning Sustainable Cities reviews the major challenges currently facing cities and towns all over the world the emergence and spread of modern urban planning and the effectiveness of current approaches More importantly it identifies innovative urban planning approaches and practices that are more responsive to current and future challenges of urbanization The Global Report on Human Settlements is the most authoritative and up to date global assessment of human settlements conditions and trends It is an essential reference for researchers academics public authorities and civil society organizations all over the world Preceding issues of the report have addressed such topics as Cities in a Globalizing World The Challenge of Slums Financing Urban Shelter and Enhancing Urban Safety and Security *Urban Governance and Informal Settlements* Ninik Suhartini, Paul Jones, 2019-02-04 The objective of this book is to better understand the nature of urban governance regarding the provision of basic urban services in rapidly growing mid sized towns and cities in developing countries Set within the context of understanding urban planning and management within the wider city setting the study focuses on the provision of the basic urban services of housing water and sanitation especially within informal settlements Using the case study of the mid sized city of Jayapura Papua Indonesia the publication explores i the types processes and stakeholders that constitute formal urban governance in the provision of basic urban services ii understanding how stakeholders gain and benefit from on the ground formal service arrangements and why and iii for those who do not directly benefit from the formal arrangements how individuals groups and communities organize and access governance to meet their basic urban needs The methods employed to better understand the nature of urban governance and its relationship to the provision of basic urban services comprised primary face to face household surveys interviewing 448 respondents ground mapping at a plot size level in four informal settlements and semi structured interviews with 12 stakeholders and secondary data regarding urban governance planning and management The study reveals that urban governance arrangements in fast growing mid sized cities have emerged both formally and informally to cope with basic urban service needs across a range of settlement types and socio cultural groups The major modes of governance arrangements in the informal settlements consist of traditional formal and informal and hybrid governance which co evolve as their boundaries overlap and intersect through time at varying levels of equilibrium The governance equilibrium represents a balance at a specific point and place in time in how stakeholders utilize and share resources and access various contributions Megacities Dirk Kruijt, Kees Koonings, 2013-04-04 For the first time in history

the majority of the world's population lives in cities the result of a rapid process of urbanization that started in the second half of the twentieth century Megacities around the world are rapidly becoming the scene for deprivation especially in the global South and the urban excluded face the brunt of what in many cases seems like low intensity warfare Featuring case studies from across the globe including Latin America the Middle East and Africa Megacities examines recent worldwide trends in poverty and social exclusion urban violence and politics and links these to the challenges faced by policy makers and practitioners

Cities and Development Jo Beall, Sean Fox, 2009-09-10 By 2030 more than sixty percent of the world's population will live in urban areas with most of the world's population growth over the next twenty five years being absorbed by cities and towns in low and middle income countries What are the consequences of this shift Demographic pressure already strains the capacity of local and national governments to manage urban change Today nearly one billion people live in slums and in the absence of significant intervention that number is set to double in the next two decades Will our future be dominated by mega cities of poverty and despair or can urbanization be harnessed to advance human and economic development Cities and Development provides a critical exploration of the dynamic relationship between urbanism and development Highlighting both the challenges and opportunities associated with rapid urban change the book surveys the historical relationship between urbanization and

development the role cities play in fostering economic growth in a globalizing world the unique characteristics of urban poverty and the poor record of interventions designed to tackle it the complexities of managing urban environments issues of urban crime violence war and terrorism in contemporary cities the importance of urban planning governance and politics in shaping city futures This book brings into conversation debates from urban and development studies and highlights the strengths and weaknesses of current policy and planning responses to the contemporary urban challenge It includes research orientated supplements in the form of summaries boxed case studies development questions and further reading The book is intended for senior undergraduate and graduate students interested in urban international and development studies as well as policy makers and planners concerned with equitable and sustainable urban development      **Urban Informality** Ahmed

M. Soliman,2021-04-26 This professional book introduces an analytical framework of urban informality perspectives in the Middle East that is aligned with the Global South The context of Egypt Lebanon and Jordan in the Middle East is the transregional focus of this book In these contexts the book opens a new arena of academic discussion on the theory and practice of urban informality Urban Informality Experiences and Urban Sustainability Transitions in Middle East Cities questions urban informality as a site of transitions interrelated and interlinked with urban sustainability transitions in speedy changes in a given environment The book presents urban informality sustainability transitions regarding resilience and adaptability that require shifts in urban systems Shifts from a static process to a dynamic process that eradicates the fragmentation between the tensions anxieties and pressures of four modes of production reproduction consumptions and distribution of goods and services in the city and its practices Finally through eleven chapters the concluding remarks explore to what extent and how can urban informality transitions be sustainable      **Local Government in Central and Eastern Europe** Andrew Coulson,Adrian Campbell,2007-08-02 This book examines the democratic changes that took place in civil society in Central and Eastern Europe after the break up of the Soviet Union      **GIS in Sustainable Urban Planning and Management** Martin van Maarseveen,Javier Martinez,Johannes Flacke,2018-12-07 The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.1201/9781315146638> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license GIS is used today to better understand and solve urban problems GIS in Sustainable Urban Planning and Management A Global Perspective explores and illustrates the capacity that geo information and GIS have to inform practitioners and other participants in the processes of the planning and management of urban regions The first part of the book addresses the concept of sustainable urban development its different frameworks the many ways of measuring sustainability and its value in the urban policy arena The second part discusses how urban planning can shape our cities examines various spatial configurations of cities the spread of activities and the demands placed on different functions to achieve strategic objective It further focuses on the recognition that urban dwellers are increasingly under threat from natural hazards and climate change Written by authors with expertise on the

applications of geo information in urban management this book showcases the importance of GIS in better understanding current urban challenges and provides new insights on how to apply GIS in urban planning It illustrates through real world cases the use of GIS in analyzing and evaluating the position of disadvantaged groups and areas in cities and provides clear examples of applied GIS in urban sustainability and urban resilience The idea of sustainable development is still very much central in the new development agenda of the United Nations and in that sense it is of particular importance for students from both the Global South and Global North Professionals researchers and students alike will find this book to be an invaluable resource for understanding and solving problems relating to sustainable urban planning and management

**Sustainable City Management** Christian Obermayr, 2017-01-04 This book analyses the housing and governance policies of the city of Surakarta in Indonesia It addresses the question of whether Surakarta's strategy for handling the city's informal sector and marginal settlements shows evidence of sustainability and good governance The book illustrates current trends in urban development and discussions on effective strategies for improving living conditions in slums on both a global and national scale Using four main programs as examples it presents a detailed overview of Surakarta's housing policies regarding the poor It critically evaluates the city's relocation measures and shows that Surakarta's city government has put into place an effective policy reaching the poor by inclusive approaches Influenced by global discussions and best practices the programs examined are characterized by elements of good governance and Solo's strategies have already been disseminated to other Indonesian cities However the book argues that deficits remain regarding participation and transparency The work is based on Christian Obermayr's outstanding Master's thesis defended in 2013 at the University of Innsbruck Austria
