Testing Times: Globalisation and Investing Theology in East Africa Henry Settimba,2009-03-05 The main topic of this book is the tendency among young people in East Africa to turn from the traditional Church towards new charismatic movements such as the Balokole which emphasise material over spiritual wealth The book will examine the reasons for this and its possible effects it will consider the

implications for the Church and possible action to take The book is divided into 9 chapters Chapter 1 gives an overview of the history of the Christian Church especially in the context of its commitment or otherwise to fighting poverty and other problems which have contributed to the rise of the Balokole Ideas on unity catholicity and holiness are discussed in relation to the Church's duties especially the Apostolic tradition of carrying on Christ's mission Chapter 2 turns to young people's views of the Church and its role It argues that love the basis of the Christian message must imply a practical duty of care and considers whether the Church's failure to offer real help is connected with young people's growing preference for non traditional religion It also looks at other problems such as family breakdown and unemployment which are facing young people Chapter 3 explores the Balokole movement and its links or mainly absence of links to established Churches Its similarity to American movements such as Word of Faith is considered and its message of prosperity teaching is examined As well as criticising Balokole distortion of Biblical messages about wealth and other matters the chapter praises the way it incorporates traditional African elements such as dance and music into its worship Should the traditional Church consider doing the same In Chapter 4 contextual theology is discussed particularly liberation theology This Latin American development is considered in the context of contemporary African problems including recent ethnic conflict widespread corruption and injustice It is argued that liberation theology a practical commitment to fighting poverty and injustice is both a Christian duty and the best way to prevent the further spread of movements like the Bakolole Chapter 5 returns to the American origins of the Bakolole movement and gives an overview of various scholars who have attacked the Word of Faith movement It uses this criticism of the often corrupt exploitative leaders of such movements as an opportunity to urge all leaders including Church leaders to reflect on and improve their own practice Chapter 6 looks at the plight of young people in East Africa It acknowledges the fact that the Bakolole have often given these people hope and a voice where all other institutions have failed them As neither their families nor their governments are able to help it is argued that the Church must fulfil its mission to serve as both family and community network even if this means abandoning its long standing habit of not getting involved in politics Chapter 7 identifies the root cause of many of the problems discussed in the previous chapter corruption It explores the way bribery nepotism and tribalism have poisoned East African political life undermined the rule of law and led to grave injustices such as the treatment of the Buganda people If this culture is to end the Church must take the lead and also root out corruption in its own ranks In Chapter 8 practical ways of applying liberation theology are discussed The chapter mentions worldwide organisations committed to fighting poverty with which the Church could work and looks at examples from recent history such as the anti apartheid struggle in South Africa It considers the various criticisms of liberation theology which have been made by conservative elements and refutes these looking at the Christian and Biblical roots of modern anti poverty movements The Church's role as the conscience of society is emphasised Chapter 9 considers what the Church will need to do in order to eradicate poverty and create a more just society It argues for careful

selection of leaders in both religious and political organisations and for regular scrutiny of their actions It reiterates the author s belief in the Church as the centre of the community with a responsibility in all areas of social and economic as well as spiritual life The book ends with a plea for the Church to take action to improve the lives of its members and prevent them from being exploited by unscrupulous forces **My Blueprint** LaTasha A. anybody else for that matter that everything was all right My limited experience in the world of born again believers up to that time has been limited to leading me to Christ and the eternal salvation of my soul However once I found Christ nobody told me what I am supposed to do here on earth other than living holy and guarding my salvation with fear and trembling before I will finally receive the keys to my mansion in heaven when I die **Righteous Riches** Milmon F.

Harrison,2005-03-03 Does God want us to be wealthy Many people believe that God offers not only eternal joy in the hereafter but also material blessings in the here and now Other Christians see this prosperity theology as nothing more than vulgar materialism incompatible with orthodox Christianity In **Righteous Riches** Milmon F Harrison examines the Word of Faith movement an independent non denominational Christian movement that preaches the so called health and wealth gospel The Word of Faith movement is an international network loosely bound by a basic doctrine called the Faith Message which teaches that it is God s will for Christians to be prosperous successful and healthy in the present life Drawing on his personal experiences as a former insider and in depth interviews with members Harrison takes us inside the movement revealing what it is like to belong and how people accept reject and reshape Word of Faith doctrines to fit their own lives Although the movement is not exclusively African American many of its most prominent and recognized leaders are African American ministers with large congregations and national television audiences Analyzing the movement s appeal to African Americans Harrison argues that because of their history of oppression and discrimination African American religious institutions have always had to address the material as well as spiritual concerns of their members The Word of Faith Movement he says is one of several prosperity movements that resonate strongly with African Americans Situating the movement in the contexts of both contemporary American religion and the history of the Black Church **Righteous Riches** offers a fascinating look at a quintessentially American phenomenon *7 Secrets to the Mysteries of God* Justin K
