Micro-historian's Guide to Research, Evidence, & Conclusions Reginald W. Bacon, 2019-09-18. *The Micro Historian's Guide to Research Evidence Conclusions* imparts useful guidance to motivated historians, genealogists, special interest researchers, and local history enthusiasts. As long-buried sources become available via the internet, more regular folks without a Ph.D. in history are joining the fun of information gathering and shining new light on under-explored history, yet often with no foundation of method. The author answers the call with this volume, paying forward the guidance received from long-ago mentors as well as from present-day historians and archivists. Topics include research planning, execution, evaluation of evidence, formulation of conclusions, and the crafting of a summary narrative. Each topic is enriched by practical examples from the author's experience. The aim is to help the new practitioner build a foundation of research skills that leads to evidence-based conclusions. The author's perspective of experience as a disciplined researcher but also with roots as a no-nonsense old-school newspaper reporter occasionally prompts a mild tease of the buttoned-down genealogy proof standard or, conversely, a deflating poke at flabby interpretation and moribund academic writing wherever it may fester. *The Micro Historian's Guide to Research Evidence Conclusions* draws theory from dozens of history, genealogy, historiography, and research giants through the ages. The book also pays tribute to that long-ago cigar-chomping newspaper editor who admonished a young reporter: "Yer mother sez she loves ya. You still gotta check it out."
