China from the very beginning and how it influenced areas as disparate as art architecture calendrical science myth  
technology and political and military decision making As elsewhere in the ancient world there was no positive distinction  
between astronomy and astrology in ancient China and so astrology or more precisely astral omenology is a principal focus of  
the book Drawing on a broad range of sources including archaeological discoveries classical texts inscriptions and  
paleography this thought provoking book documents the role of astronomical phenomena in the development of the Celestial
