International Disaster Management Fourth Edition offers an unbiased global perspective for students and practitioners alike. It provides a comprehensive understanding of the disaster management profession covering the varied sources of risk and vulnerability, the systems that exist to manage hazard risk, and the many different stakeholders involved from individuals to global organizations. This text also serves as a reference on scores of disaster management topics including various technological and intentional hazards on international disaster management structures and systems on global humanitarian spending and support and much more. Taking a real world approach with considerable illustration through case studies and recent and historical disaster events, this book prepares students interested in joining the disaster management community to understand the work they will be doing. In addition, it assists those who already work with the disaster management community by helping them better navigate this complex environment. Includes sections on the Ebola epidemic, the Nepal Earthquake, the 2015/2016 Western U.S. Wildfires, the Indonesia Palm Oil Fires, Hurricanes Harvey, Irma, and Maria, the Mexico City Earthquake, emerging hazards like trash avalanches, and more. Provides a valuable introduction on the groundbreaking Sendai Framework for Disaster Risk Reduction 2015-2030 signed in March of 2015 along with an explanation of the relationship of this effort to Sustainable Development Goals and the Paris Agreement. Explores the importance of global disaster risk reduction. Covers key terms and chapter summaries as well as instructor resources, support learning, and instruction.
