New Empirical Perspectives on Translation and Interpreting

Lore Vandevoorde, Joke Daems, Bart Defrancq, 2019-12-06 Drawing on work from both eminent and emerging scholars in translation and interpreting studies this collection offers a critical reflection on current methodological practices in these fields toward strengthening the theoretical and empirical ties between them Methodological and technological advances have pushed these respective areas of study forward in the last few decades but advanced tools such as eye tracking and keystroke logging and insights from their use

have often remained in isolation and not shared across disciplines This volume explores empirical and theoretical challenges across these areas and the subsequent methodologies implemented to address them and how they might be mutually applied across translation and interpreting studies but also brought together toward a coherent empirical theory of translation and interpreting studies Organized around three key themes target text orientedness source text orientedness and translator interpreter orientedness the book takes stock of both studies of translation and interpreting corpora and processes in an effort to answer such key questions including how do written translation and interpreting relate to each other How do technological advances in these fields shape process and product What would an empirical theory of translation and interpreting studies look like Taken together the collection showcases the possibilities of further dialogue around methodological practices in translation and interpreting studies and will be of interest to students and scholars in these fields

Information Communication Technology and Social Transformation Hugh F. Cline, 2014-02-05 This book argues that information communication technologies are not creating new forms of social structure but rather altering long standing institutions and amplifying existing trends of social change that have their origins in ancient times Using a comparative historical perspective it analyzes the applications of information communication technologies in relation to changes in norms and values education institutions the socialization of children new forms of deviant and criminal behaviors enhanced participation in religious activities patterns of knowledge creation and use the expansion of consumerism and changing experiences of distance and time

The Cultural Transformation of A Native American Family and Its Tribe 1763-1995 Joel Spring, 2012-11-12 This book describes the impact of U S government civilization and education policies on a Native American family and its tribe from 1763 to 1995 While engaged in a personal quest for his family s roots in Choctaw tribal history the author discovered a direct relationship between educational policies and their impact on his family and tribe Combining personal narrative with traditional historical methodology the author details how federal education policies concentrated power in a tribal elite that controlled its own school system in which students were segregated by social class and race The book begins with the cultural differences that existed between Native Americans and European colonists The civilization policies discussed begin in the 1790s when both Presidents George Washington and Thomas Jefferson searched for a means of gaining the lands occupied by the southern tribes including the Choctaws The story involves a complicated interaction between government policies the agenda of white educators and the desires of Native Americans In a broader context it is a study of the evolution of an American family from the extended support of the community and clan of the past to the present world of single parents adrift without community or family safety nets

Multicultural Curriculum Transformation in Social Studies and Civic Education Kenneth J.

Fasching-Varner, Kerri J. Tobin, Norma A. Marrun, Iesha Jackson, Christine Clark, 2021-07-12 This book focuses on multicultural curriculum transformation in social studies and civic education subject areas. The discussion of each area outlines critical considerations for multicultural curriculum transformation for the area by grade level and then by eight organizing tools including content standards relationships with and among students and their families and evaluation of student learning and teaching effectiveness. The volume is designed to speak with PK-12 teachers as colleagues in the multicultural curriculum transformation work. Readers are exposed to things to think about but also given curricular examples to work with or from in going about the actual concrete work of curriculum change. This work supports PK-12 teachers to independently multiculturally adapt existing curriculum to create new multicultural curriculum differentiated by content areas and grade levels and by providing ample examples of what such multicultural transformed social studies and civic education curricula look like in practice. *Transformation and Empowerment through Education* Raqib Chowdhury, 2018-11-19 Transformation and Empowerment through Education challenges the normalisation of Western discourses as the optimal choice for empowering education. The book aims to reconstruct our relationship with education and employs contemporary theories in order to understand some of the most persistent phenomena in contemporary education and its role in our lives. Written by professionals with experience of a wide range of academic and institutional conventions and traditions and from diverse ethnocultural backgrounds, this book effectively presents a global perspective on educational practices both inside and outside the classroom. The range of topics covered includes equity, access, inclusivity, social justice, leadership, and the internationalisation of teaching. This book, based on empirical studies using key methodologies, is ideal for academics and postgraduate researchers interested in critical pedagogy, educational studies, and educational linguistics, as well as educators and policymakers around the world. **The Mana of Translation** Bryan Kamaoli Kuwada, 2024-12-31 In *The Mana of Translation: Translational Flow in Hawaiian History from the Baibala to the Mauna*, Bryan Kamaoli Kuwada makes visible the often unseen workings of translation in Hawai'i from the advent of Hawaiian alphabetic literacy to contemporary struggles over language and land. Translation has had a massive impact on Hawaiian history both as it unfolded and how it came to be understood, yet it remains understudied in Hawaiian and Indigenous scholarship. In an engaging and wide-ranging analysis, Kuwada examines illuminative instances of translation across the last two centuries through the analytic of *mana unuhi*, the mana power authority branch version attained or given through translation. Translation has long been seen as a tool of colonialism, but examining history through *mana unuhi* demonstrates how Hawaiians used translation as a powerful tool to assert their own literary, cultural, and political sovereignty, something Hawaiians think of in terms of *ea* (life, breath, sovereignty, rising). Translation also gave mana to particular stories about Hawaiians, some empowering others harmful, creating a clash of narratives that continue to this day. Drawing on sources in Hawaiian and English that span newspapers, letters, and journals, religious and legal documents, missionary records, court

transcripts traditional stories and more this book makes legible the utility and importance of paying attention to mana unuhi in Hawai i and beyond Through chapters on translating the Hawaiian Bible the role of translation in the Hawaiian Kingdom s bilingual legal system Hawaiians powerful deployment of translation in nineteenth century n pepa newspapers the early twentieth century era of extractive scholarly translation and the possibilities that come from refusing translation as demonstrated in legal proceedings related to the protection of Maunakea Kuwada questions narratives about the inevitability of colonial victory and the idea that things can only be lost in translation Writing in an accessible yet rigorous style Kuwada follows the flows of translation and its material practices to bring forth the power dynamics of languages and how these differential forces play out on ideological and political battlefields Specifically rooted in Hawai i yet broadly applicable to other colonial situations *The Mana of Translation* provides us with a transformative new way of looking at Hawaiian history
