

Wireless Quick Start Guide

To create a **NEW** wireless connection between the HP printer and a wireless network, choose one of the following methods.

Method 1: Use a mobile device (such as a smartphone or tablet)

1. Make sure your mobile device has been connected to your wireless network and you know your Wi-Fi password.
2. On the printer, press and hold the **Wireless button** and the **Cancel button** for 3 seconds. The Power light will blink for a few seconds, and then the printer will be in setup mode. (The Wireless light will continue to blink until the printer is connected to the Wi-Fi network.)
3. If you have never installed the HP Smart app before, open a web browser, visit 123.hp.com to install the HP Smart app, and then follow the instructions on your mobile device.
If the HP Smart app is already installed, open the app. If the printer isn't found, select **"Add a new printer"**, and then follow the on-screen instructions.

Note: After the printer connects successfully, the Wireless light stops blinking and stays on.

Method 2: Use a computer

Note: You might be prompted to enter the wireless network name and password. (You can sometimes find them on the back or side of the wireless router if you have not changed them.)

1. Make sure your computer has been connected to your wireless network.
2. On the printer, press and hold the **Wireless button** and the **Cancel button** for 3 seconds. The Power light will blink for a few seconds, and then the printer will be in setup mode. (The Wireless light will continue to blink until the printer is connected to the Wi-Fi network.)
3. Complete the appropriate instructions:
 - If you have **NOT** installed the HP software or the HP Smart app before, open a web browser and visit 123.hp.com to install the HP software or the HP Smart app. Select **"Connect a new printer"**, and then follow the instructions.
 - If you have installed the HP software or the HP Smart app already, complete the following steps:

Microsoft® Windows®

Windows® 10: If the HP printer software is installed, click the Start menu icon in the corner of the desktop, select **"All apps"**, click **"HP"**, click the folder for the printer, select the printer icon, and then click **"Connect a new printer"**.

If the HP Smart app is installed, open the app. If the printer isn't found, select **"Add a new printer"**, and then follow the on-screen instructions.

Windows® 8.1: Click the down arrow in lower left corner of the Start screen, and then select the printer name.

Windows® 8: Right-click an empty area on the Start screen, click **"All Apps"** on the app bar, click the printer name, click **"Utilities"**, click **"Printer Setup & Software"**, and then follow the on-screen instructions.

Windows® 7: Click **"Start"**, click **"Programs"** or **"All Programs"**, click **"HP"**, click the folder for your printer, click **"Printer Setup & Software"**, click **"Connect a new printer"**, and then follow the on-screen instructions.
