Language and Literacy Rachel Whittaker, Anne McCabe, Mick O'Donnell, 2006-12-08. This volume examines the relationship between language and literacy from a systemic functional perspective. The book starts with a retrospective view on the development of language education practices written by eminent linguistics Michael Halliday and Ruqaiya Hasan, and then shows how this approach is implemented today. The second section presents a detailed analysis of how considerations of literacy education are approached in educational systems around the world. The contributors examine issues such as metadiscourse, genre, cultural politics, and how systemic functional grammar can help to raise literacy standards. The final section looks at literacy in more specific disciplines including history, literature, science, and student writing. The essays collected here present a comprehensive analysis of language and literacy from a systemic functional perspective written by academics at the forefront of the field. It will be of interest to researchers in systemic functional linguistics or language and education.

Achieving and Sustaining Institutional Excellence for the First Year of College Betsy O. Barefoot, John N. Gardner, Marc Cutright, Libby V. Morris, Charles C. Schroeder, Stephen W. Schwartz, Michael J. Siegel, Randy L. Swing, 2010-04-30. In 2002, the Policy Center on the First Year of College, supported by The Pew Charitable Trusts, The Atlantic Philanthropies, and Lumina Foundation for Education, sponsored a project to recognize colleges and universities as Institutions of Excellence in their design and execution of the first year. Thirteen colleges and universities representing a broad spectrum of campus types were selected as exceptional institutions that place a high priority on the first year experience. *Achieving and Sustaining Excellence in the First Year of College* includes case studies of each of the thirteen exemplary institutions. These studies illustrate and analyze the colleges' best practices in teaching, assessing, and retaining first-year college students. The individual case studies offer lessons learned and have broad potential application beyond the particular type of institution represented.

**Just in Time Teaching** Scott Simkins, Mark Maier, 2023-07-03. Just in Time Teaching (JiT) is a pedagogical approach that requires students to answer questions related to an upcoming class a few hours beforehand using an online course management system. While the phrase just in time may evoke shades of slapdash work and cut corners, JiT pedagogy is just the opposite. It helps students to view learning as a process that takes time, introspection, and persistence. Students who experience JiT come to class better prepared and report that it helps to focus and organize their out-of-class studying. Their responses to JiT questions make gaps in their learning visible to the teacher prior to class, enabling him or her to address learning gaps while the material is still fresh in students' minds, hence the label.

just in time JiTT questions differ from traditional homework problems in being designed not only to build cognitive skills but also to help students confront misconceptions make connections to previous knowledge and develop metacognitive thinking practices Students consequently spend more time on course concepts and ideas but also read their textbooks in ways that result in more effective and deeper learning Starting the class with students work also dramatically changes the classroom learning environment creating greater student engagement This book demonstrates that JiTT has broad appeal across the academy Part I provides a broad overview of JiTT introducing the pedagogy and exploring various dimensions of its use without regard to discipline Part II of the book demonstrates JiTT s remarkable cross disciplinary impact with examples of applications in physics biology the geosciences economics history and the humanities Just in Time Teaching article from The Hispanic Outlook in Higher Education Reprinted with permission from Hispanic Outlook in Higher Education Magazine [www.hispanicoutlook.com](http://www.hispanicoutlook.com) Fun-Size Academic Writing for Serious Learning Gretchen Bernabei, Judi Reimer, 2013-07-31
