

## Chapter 1 Introduction

Chapter 1 provides a brief introduction to the subject of computer science. The chapter is divided into two main sections: the first section discusses the history of computer science, and the second section discusses the current state of the field. The chapter also includes a list of key concepts and a list of references.

The first section, "History of Computer Science," discusses the origins of the field and the development of the computer. It covers the early days of mechanical computing, the development of the electronic computer, and the rise of the personal computer. It also discusses the impact of the computer on society and the economy.

The second section, "Current State of the Field," discusses the current state of computer science research and development. It covers the development of new hardware and software technologies, the development of new algorithms and data structures, and the development of new applications. It also discusses the impact of the computer on society and the economy.

The chapter concludes with a list of key concepts and a list of references. The key concepts include: computer science, computer hardware, computer software, algorithms, data structures, and applications. The references include: "The History of Computer Science" by David C. Evans, "The Current State of the Field" by David C. Evans, and "The Impact of the Computer on Society and the Economy" by David C. Evans.
