The **INPUT** and **VIDEO** key has three functions. It'll toggle through all the video/audio sources connected to your TV or audio component. It'll toggle between VCR and the TV input. It'll let you separate the audio channel number from the sub-channel number on digital channel numbers.

Six-Component Universal Remote

Congratulations on your purchase of this six-component universal remote. This universal remote controls up to six electronic components and makes logging remote controls a thing of the past. Your remote is programmed to work with all brand-name components. This remote is unusually versatile because it has over 4000 keys that you can program to control any video component. The six-component universal remote is easy to use, fun to program, and gives you control on the touch of a button.

CODE BOOK
programming information is in the manual and code lists in the remote. You will be able to find the code for your component in the code book.

Step 1: The universal remote control is already programmed to control your RCA, LG, and PROSCENIUM brand TVs, VCRs, DVD players, and audio systems. Just press the corresponding key (TV, VCR, DVD, or AUDIO) to program the remote to control your TV, VCR, DVD, or audio system.

Find and Information

For more information, see the manual and code lists in the remote. Depending on the model, the remote may have the following features:

1. **Replace the batteries.**
2. **Insert the batteries,** matching the (+) and (-) marks inside the battery compartment.
3. **Push the battery cover back into place.**

Notes: If you are replacing batteries, try not to press any key after you've taken the old batteries out. Pressing any while replacing batteries causes the remote to lose the information you've programmed. The code will be in program the remote again.

Battery Precautions

- Do not mix old and new batteries.
- Do not mix alkaline, standard (non-rechargeable), or rechargeable (nickel-cadmium) batteries.
- Always insert old, used, or worn-out batteries properly and upside or down of them in accordance with Local and National Regulations.

Battery Saver

Your universal remote control saves battery power by automatically turning off if any key is pressed for more than 60 seconds. This saves your battery life should your remote get stuck in a place where the keys remain depressed, such as between your cushions.

Care and Maintenance

- Keep the remote dry. If it gets wet, wipe it dry immediately.
- Use and store the remote only in normal temperatures.
- Handle the remote gently and carefully. Don't drop it.
- Store the remote away from dust and dirt.
- Wipe the remote with a damp cloth occasionally to keep it looking new.
- Modifying or tampering with the remote's internal components, without authorization and in violation of warranty.
