Manual del Proprietario (parte posterior)

SAVE THIS MANUAL AND THE CODE LISTS

Remote controls can sometimes lose their programming when you change the batteries. Make sure you keep the manual and code list in a safe place so that you can reprogram the remote if you need to.

Tip: This remote is already programmed to control most RCA products. For all the DVD players and satellite receivers, just press the corresponding key—**RECORD** for a DVD player, **TV** for a satellite, **SAT/CBL** for a satellite receiver.

Step 1: Install your batteries

This universal remote requires two AA alkaline batteries.

Step 2: Program

To use this universal remote system, first you must get the codes that will make you able to operate your device.

- The **Auto Code Search** method for the device you wish to use is the easiest method, but it will require other programming work.
- The **Brand Code Search** method searches for devices of a specific brand, but it can be tedious.
- The **Manual Code Entry** method requires you to enter the code for the device you wish to use as the other methods.

Auto Code Search

The **Auto Code Search** method searches for the device you wish to use that operates your device. It will find the code.

NOTE: Each device has a code. The TV is preset to search for the code. The code for the device you wish to use is listed in the code list. To set without using a code list, press the **GO BACK** key.
