The diagram illustrates a rainwater recovery system. A house with a red roof is shown in the background. A downspout from the roof leads to a green cylindrical storage tank. An orange pipe runs from the tank to a large, rectangular, modular storage unit made of grey blocks. This unit is partially buried in the ground, with blue arrows indicating water flowing into and out of it. The unit has a cross-section showing internal compartments. The foreground is a blue area representing water or a pool.
