REPUBLIC OF SOUTH AFRICA

SOUTH AFRICAN ARMY

MILITARY SKILLS DEVELOPMENT SYSTEM (MSDS) 2019

BACKGROUND

THE MILITARY SKILLS DEVELOPMENT SYSTEM (MSDS)

The South African Army, through its Military Skills Development System (MSDS), is offering young South African citizens an opportunity to serve in uniform over a two-year period. The Military Skills Development System is a two-year voluntary service system with the long term goal of enhancing the SA National Defence Force's deployment capability.

Successful MSDS candidates will be appointed in a specific **muster** and will be called up to a Training Unit, where **musters** will complete their Basic Military Training, **specific muster** and functional training in the first year and be utilized or deployed in the second year of the MSDS.

Requirements:

- No dual citizenship be a South African citizen only
- Grade 12 Applicants must be between the ages of 18-22 years
- Graduates and/or other Tertiary Qualification up to the age of 26 years
- Successfully completed Grade 12 (preferable with university entrance)
- Leadership potential
- Not be area bound
- Have no criminal offence record or pending cases
- Comply with medical fitness requirements for appointment in the SANDF
- Be prepared to serve in uniform, undergo Basic Military and Functional Training

Training:

The SA Army's mandate focuses on the provisioning of combat ready forces and plays a leading role in landward operations. Training will be decentralized to operational units where members will be appointed to undergo Basic Military Training, **muster** training and be deployed as per **requirements** of the South African Army.

Incomplete forms will not be considered. Only applicants who have passed Grade 12 may apply and must not be older than the age stipulated above on the date of reporting for training. Certified copies of ID document, Grade 12 certificate or Post grade 12 qualifications and CV must accompany this application form to SA Army Recruitment, Private Bag X 981, Pretoria, 0001.

N.B. During the selections, the applicants will be subject to Psychometric evaluations; Medical Evaluations; Vetting and Verification of qualifications.

ENQUIRIES AND APPLICATIONS

Administrative enquiries can be directed to the SA Army MSDS Section (012) 355 2130 or (012) 355 1774. If you are interested in the Military Skills Development System in the SA Army, please complete the coupon with the requested documentation enclosed and post it to:

SA Army HQ, Chief Army Corporate Services, Directorate Army Human Resources, Private Bag X 981, Pretoria, 0001.

Specific related enquiries can be directed to (012) 355 2130 or (012) 355 1774. Further information can be obtained on www.dod.mil.za, www.army.mil.za

Should you not hear from Department of Defence by 31 October 2018 please consider your application unsuccessful.

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African

National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13. *Contemporary Issues in South African Military Psychology* is a well-timed, extremely thought-provoking, imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields, specifically in the military field and context. This is specifically of importance as military psychology is a behavioural science that combines theory and practical application. Prof Karel Stanz, University of Pretoria.

Religion and Health Care in East Africa Robert B. Lloyd, Melissa Haussman, Patrick James, 2019-03-13. What social factors contribute to the tragic state of health care in Africa? Focusing on East African societies, this book is the first to investigate what role religion plays in health care in African cultures. Taking into account the geopolitical and economic environments of the region, the authors examine the roles played by individual and group beliefs, government policies and pressure from the Millennium Development Goals in affecting health outcomes. Informed by existing related studies and on the ground interviews with individuals and organizations in Uganda, Mozambique and Ethiopia, this interdisciplinary book will form an invaluable resource for scholars seeking to better understand the links between society, multi-level state instruments and health care in East Africa.

The Statesman's Year-Book, 1996-7 B. Hunter, 2016-12-27. The 133rd edition of *The Statesman's Year Book* is completely revised and updated. Widely respected as an authoritative and accessible reference work, *The Statesman's Year Book* provides the basic building blocks of knowledge about any country in the world: constitution and government, international relations, industry, agriculture, trade and social issues. Known as a people events and statistics work, this year's edition includes accounts of the latest developments in trouble spots such as Bosnia, Israel and Northern Ireland and records the results of recent elections in Italy, Austria, Spain and Turkey.

Pakistan Russian Federation Saudi Arabia South Africa Turkey United Arab Emirates UK USA **Men's Health Equity** Derek M. Griffith, Marino A. Bruce, Roland J. Thorpe, Jr., 2019-04-25 Worldwide men have more opportunities privileges and power yet they also have shorter life expectancies than women Why is this Why are there stark differences in the burden of disease quality of life and length of life amongst men by race ethnicity disability status sexual orientation gender identity rurality and national context Why is this a largely unexplored area of research Men's Health Equity is the first volume to describe men's health equity as a field of study that emerged from gaps in and between research on men's health and health inequities This handbook provides a comprehensive review of foundations of the field summarizes the issues unique to different populations discusses key frameworks for studying and exploring issues that cut across populations in the United States Australia Canada the United Kingdom Central America and South America and offers strategies for improving the health of key population groups and achieving men's health equity overall This book systematically explores the underlying causes of these differences describes the specific challenges faced by particular groups of men and offers policy and programmatic strategies to improve the health and well being of men and pursue men's health equity Men's Health Equity will be the first collection to present the state of the science in this field its progress its breadth and its future This book is an invaluable resource for scholars researchers students and professionals interested in men's health equity men's health psychology of men's health gender studies public health and global health

Tourism Destination Management in a Post-Pandemic Context Vanessa GB Gowreesunkar, Shem Wambugu Maingi, Hiran Roy, Roberto Micera, 2021-06-11 Drawing from lessons of the COVID 19 pandemic Tourism Destination Management in a Post Pandemic Context presents cases and competencies to advance theoretical and empirical knowledge in the management of destinations post pandemic

An Anthropology of Biomedicine Margaret M. Lock, Vinh-Kim Nguyen, 2018-03-20 In this fully revised and updated second edition of An Anthropology of Biomedicine authors Lock and Nguyen introduce biomedicine from an anthropological perspective exploring the entanglement of material bodies with history environment culture and politics Drawing on historical and ethnographic work the book critiques the assumption made by the biological sciences of a universal human body that can be uniformly standardized It focuses on the ways in which the application of biomedical technologies brings about radical changes to societies at large based on socioeconomic inequalities and ethical disputes and develops and integrates the theory that the human body in health and illness is not an ontological given but a moveable malleable entity This second edition includes new chapters on microbiology and the microbiome global health and the self as a socio technical system In addition all chapters have been comprehensively revised to take account of developments from within this fast paced field in the intervening years between publications References and figures have also been updated throughout This highly regarded and award winning textbook Winner of the 2010 Prose Award for Archaeology and Anthropology retains the character and features of the previous edition Its coverage remains broad including discussion of biomedical technologies in

practice anthropologies of medicine biology and human experiments infertility and assisted reproduction genomics epigenomics and uncertain futures and molecularizing racial difference ensuring it remains the essential text for students of anthropology medical anthropology as well as public and global health **Medicine and Modern Warfare** ,2016-08-29

After years at the margins of medical history the relationship between war and medicine is at last beginning to move centre stage The essays in this volume focus on one important aspect of that relationship the practice and development of medicine within the armed forces from the late nineteenth century through to the end of the Second World War During this crucial period medicine came to occupy an important position in military life especially during the two world wars when manpower was at a premium Good medical provisions were vital to the conservation of manpower protecting servicemen from disease and returning the sick and wounded to duty in the shortest possible time A detailed knowledge of the serviceman s mind and body enabled the authorities to calculate and standardise rations training and disciplinary procedures Spanning the laboratory and the battlefield and covering a range of national contexts the essays in this volume provide valuable insights into different national styles and priorities They also examine the relationship between medical personnel and the armed forces as a whole by looking at such matters as the prevention of disease the treatment of psychiatric casualties and the development of medical science The volume as a whole demonstrates that medicine became an increasingly important part of military life in the era of modern warfare and suggests new avenues and approaches for future study *Congressional Record* United States. Congress,1997

Subjective Well-being in Online and Mixed Educational Settings Juan Carlos Oyanedel,Daniel Abs,Pablo Rivera-Vargas,2023-03-29 *Investigating Social Problems* A. Javier Trevino,2017-12-21 A Javier Trevi o working with a panel of experts thoroughly examines all aspects of social problems providing a contemporary and authoritative introduction to the field Each chapter is written by a specialist on that particular topic and the unique contributed format ensures that the research and examples provided are the most current and relevant available The text is framed around three major themes intersectionality the interplay of race ethnicity class and gender the global scope of many problems and how researchers take an evidence based approach to studying problems **Textbook of Global Health** Anne-Emanuelle Birn,Yogan Pillay,Timothy H. Holtz,2017-01-24 THE CRITICAL WORK IN GLOBAL HEALTH NOW COMPLETELY REVISED AND UPDATED This book compels us to better understand the contexts in which health problems emerge and the forces that underlie and propel them Archbishop Emeritus Desmond Mpilo Tutu H1N1 Diabetes Ebola Zika Each of these health problems is rooted in a confluence of social political economic and biomedical factors that together inform our understanding of global health The imperative for those who study global health is to understand these factors individually and especially synergistically Fully revised and updated this fourth edition of Oxford s Textbook of Global Health offers a critical examination of the array of societal factors that shape health within and across countries including how health inequities create consequences that must be addressed by public health international aid and social and economic

policymaking The text equips students activists and health professionals with the building blocks for a contextualized understanding of global health including essential threads that are combined in no other work historical dynamics of the field the political economy of health and development analysis of the current global health structure including its actors agencies and activities societal determinants of health from global trade and investment treaties to social policies to living and working conditions the role of health data and measuring health inequities major causes of global illness and death including under crises from a political economy of health vantage point that goes beyond communicable vs non communicable diseases to incorporate contexts of social and economic deprivation work and globalization the role of trade investment and financial liberalization precarious work and environmental degradation and contamination principles of health systems and the politics of health financing community national and transnational social justice approaches to building healthy societies and practicing global health ethically and equitably Through this approach the Textbook of Global Health encourages the reader be it student professional or advocate to embrace a wider view of the global health paradigm one that draws from political economy considerations at community national and transnational levels It is essential and current reading for anyone working in or around global health **Journal of the House of Representatives of the United States** United States.
