South Sea Tales Robert Louis Stevenson, 2008-05-08 The literary world was shocked when in 1889 at the height of his career Robert Louis Stevenson announced his intention to settle permanently on the Pacific island of Samoa His readers were equally shocked when he began to use the subject material offered by his new environment not to promote a romance of empire but to produce some of the most ironic and critical treatments of imperialism in nineteenth century fiction In these stories as in his work generally Stevenson shows himself to be a virtuoso of narrative styles his Pacific fiction includes the domestic realism of *The Beach at Fales* the folktale plots of *The Bottle Imp* and *The Isle of Voices* and the modernist blending of naturalism and symbolism in *The Ebb Tide* But beyond their generic diversity the stories are linked by their concern with representing the multiracial society of which their author had become a member In this collection the first to bring together all his shorter Pacific fiction in one volume Stevenson emerges as a witness both to the cross cultural encounters of nineteenth century imperialism and to the creation of the global culture which characterizes the post colonial world ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

island as a jumping off point to explore the overarching historical event of our time the rise and triumph of human empire the apotheosis of the modern ambition to increase knowledge and power in order to achieve world domination Confronting an intensely humanized world was a singular event of consciousness which Williams explores through the lives and works of three writers of the late nineteenth century Jules Verne William Morris and Robert Louis Stevenson As the century drew to a close these writers were unhappy with the direction in which their world seemed to be headed and worried that organized humanity would use knowledge and power for unworthy ends In response Williams shows each engaged in a lifelong quest to make a home in the midst of human empire to transcend it and most of all to understand it They accomplished this first by taking to the water in life and in art the transition from land to water offered them release from the condition of human domination At the same time each writer transformed his world by exploring the literary boundary between realism and romance Williams shows how Verne Morris and Stevenson experimented with romance and fantasy and how these traditions allowed them to express their growing awareness of the need for a new relationship between humans and Earth The Triumph of Human Empire shows that for these writers and their readers romance was an exceptionally powerful way of grappling with the political technical and environmental situations of modernity As environmental consciousness rises in our time along with evidence that our seeming control over nature is pathological and unpredictable Williams s history is one that speaks very much to the present
