into the national debates that were shaping Spanish cultural and political life at the turn of the century Reclaiming al Andalus explains how regenerationist projects taking form after the national crisis of 1898 and different polemical discussions around religion state affairs deeply influenced the writings of academic Orientalism The intertwined connection between Orientalist scholarship and nationalist debates in Spain has hitherto been understudied This book not only contributes to the general debate on modern Orientalism but most importantly presents a profound new viewpoint to the ongoing debate on the conflictive history of Spanish nationalism
