First and foremost it is about a public health program the Special Supplemental Nutrition Program for Women, Infants and Children known more commonly as WIC and how the institution reinscribes persistent stereotypes of the urban poor on the women it eagerly wishes to serve. Despite encountering opposition and occasional humiliation at the hands of those chosen to serve many low income women throughout the United States and Puerto Rico return to WIC every month because it represents a rite of passage that characterizes pregnancy. Enrolling in WIC prenatally signifies to others the importance of providing for one's family in spite of socioeconomic disadvantage. Yet whether women access WIC benefits or not their lived realities include a painful and enduring connection between urban poverty and health inequalities particularly inequalities leading to poor birth outcomes and infant mortality as explored in this urban ethnography. *Consumer Education*, 1982 *Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2012* United States.
