Free Speech Beyond Words Mark V. Tushnet, Alan K. Chen, Joseph Blocher, 2020-02-15 A look at First Amendment coverage of music non representational art and nonsense The Supreme Court has unanimously held that Jackson Pollock's paintings Arnold Sch enberg's music and Lewis Carroll's poem Jabberwocky are unquestionably shielded by the First Amendment Nonrepresentational art instrumental music and nonsense all receive constitutional coverage under an amendment protecting the freedom of speech even though none involves what we typically think of as speech the use of words to convey meaning As a legal matter the Court's conclusion is clearly correct but its premises are murky and they raise difficult questions about the possibilities and limitations of law and expression Nonrepresentational art instrumental music and nonsense do not employ language in any traditional sense and sometimes do not even involve the transmission of articulable ideas How then can they be treated as speech for constitutional purposes What does the difficulty of that question suggest for First Amendment law and theory And can law resolve such inquiries without relying on aesthetics ethics and philosophy Comprehensive and compelling this book represents a sustained effort to account constitutionally for

these modes of speech While it is firmly centered in debates about First Amendment issues it addresses them in a novel way using subject matter that is uniquely well suited to the task and whose constitutional salience has been under explored Drawing on existing legal doctrine aesthetics and analytical philosophy three celebrated law scholars show us how and why speech beyond words should be fundamental to our understanding of the First Amendment **Biology** Edward C.
