Eye for Eternity Mark McKenna, 2020-11-03 Manning Clark was a complex demanding and brilliant man Mark McKenna's compelling biography of this giant of Australia's cultural landscape is informed by his reading of Clark's extensive private letters journals and diaries many that have never been read before An Eye for Eternity paints a sweeping portrait of the man who gave Australians the signature account of their own history It tells of his friendships with Patrick White and Sidney Nolan It details an urgent and dynamic marriage ripped apart at times by Clark's constant need for extramarital romantic love A son who wrote letters to his dead parents A historian who placed narrative ahead of facts A doubter who flirted with Catholicism A controversial public figure who marked slights and criticisms with deeply held grudges To understand Clark's life is to understand twentieth century Australia And it raises fundamental questions about the craft of biography When are letters too personal comments too hurtful and insights too private to publish Clark incessantly documented his life leaving notes to the biographers he knew would pursue his story He had a deep need to be remembered and this book means he will now be understood in an unforgettable way

**Open Minds** Carolyn Evans, Adrienne Stone, 2021-03-02 Recently the alarm has been raised basic freedoms are under attack in our universities A generation of snowflake students are shutting out ideas that challenge their views Ideologically motivated academics are promoting propaganda at the expense of rigorous research and balanced teaching Universities are caving in and denying platforms to problematic public speakers Is this true or is it panic and exaggeration Carolyn Evans and Adrienne Stone deftly investigate the arguments analysing recent controversies and delving into the history of the university They consider the academy's core values and purpose why it has historically given higher protection to certain freedoms and how competing legal ethical and practical claims can restrict free expression This book asks the necessary questions and responds with thoughtful reasoned answers Are universities responsible for helping students to thrive in a free intellectual climate Are public figures who work outside of academia owed an audience Does a special duty of care exist for students and faculty targeted by hostile speech And are high profile cases diverting attention from more complex serious threats to freedom in universities such as those posed by domestic and foreign governments industry partners and donors
