Brunei and the Future Transformation of Southeast Asia Gabriel Yit Vui Yong, A.K.M. Ahsan Ullah, 2025-08-13 This book adopts an interdisciplinary approach drawing on contributions from experts in various fields such as geography environmental and developmental studies to provide a comprehensive analysis of Brunei's role within Southeast Asia's future trajectory Brunei has often been overlooked or given only cursory coverage in regional analyses and so this book affords significant attention to the Bruneian perspective on regional development By integrating Brunei's unique historical geographical and socio-economic context into the broader discussion the book offers insights into how Brunei's aspirations and challenges contribute to shaping the region's future By emphasizing local regional transformation and resilience the book provides practical insights into how Brunei and other Southeast Asian nations can navigate uncertainties adapting to global challenges such as climate change economic shifts and geopolitical dynamics and seize opportunities in the coming decades It is relevant to social scientists across disciplines focused on Southeast Asia and in the Muslim world's role in development

The Lost Dark Age Kingdom of Rheged Ronan Toolis, Christopher Bowles, 2017-01-31 Trusty's Hill is an early medieval fort at Gatehouse of Fleet Dumfries and Galloway The hillfort comprises a fortified citadel defined by a vitrified rampart around its summit with a number of enclosures looping out along lower lying terraces and crags The approach to its summit is flanked on one side by a circular rock cut basin and on the other side by Pictish Symbols carved on to the face of a natural outcrop of bedrock This Pictish inscribed stone is unique in Dumfries and Galloway and southern Scotland and has long puzzled scholars as to why the symbols were carved so far from Pictland and even if they are genuine The Galloway Picts Project launched in 2012 aimed to recover evidence for the archaeological context of the inscribed stone but far from validating the existence of Picts in this southerly region of Scotland the archaeological context instead suggests that the carvings relate to a royal stronghold and place of inauguration for the local Britons of Galloway around AD 600 Examined in the context of contemporary sites across southern Scotland and northern England the archaeological evidence from Galloway suggests that this region may have been the heart of the lost Dark Age kingdom of Rheged a kingdom that was in the late sixth century pre eminent amongst the kingdoms of the north The new

Ayoade,Adeoye A. Akinsanya,2012-11-29 Elections have been central to regime collapse in Nigeria because they neither passed the test of citizens acceptability nor electoral neutrality They always pushed the country to a dangerous brink which she has often survived after serious constitutional and political bruises The general election of 1964 rocked the delicate balance of the country resulting in the military coup of January 15 1966 and a thirty month civil war The subsequent effort of the military at restructuring the country did not go far enough to win the civic confidence of the people The military availed itself of another opportunity of tinkering with the system in 1993 However it demonstrated that it was not immune to civic dishonesty when it annulled the widely acclaimed free and fair presidential election in June 12 1993 By fits and starts Nigeria held another election in 1999 which was tolerated only because of citizens fatigue of military rule The elections of 2003 and 2007 were classic examples of make belief democracy The feeding of inequity and if you will domination persisted A combination of fortune trickery and arm twisting produced a power shift in favour of Dr Goodluck Ebele Azikwe Jonathan in April 2011 The subsequent attempt by the north to create a strategic consensus did not save it from being pushed into fringe politics forcing some of its spokespersons to vow that they will make governance impossible The election was better than the worst but much still remains to be done Curiosities of Physical Geography. 2 Series Wilhelm WITTICH (Professor of German at University College, London.),1869 *Magnetic Declination in Delaware, Maryland, Virginia, West Virginia, Kentucky, and Tennessee* U.S. Coast and Geodetic Survey,1929
