**Confronting Past Human Rights Violations** Chandra Lekha Sriram, 2004-08-12 This book examines what makes accountability for previous violations more or less possible for transitional regimes to achieve It closely examines the other vital goals of such regimes against which accountability is often balanced The options available are not simply prosecution or pardon as the most heated polemics of the debate over transitional justice suggest but a range of options from complete amnesty through truth commissions and lustration or purification to prosecutions The question then is not whether or not accountability can be achieved but what degree of accountability can be achieved by a given country The focus of the book is on the politics of transition what makes accountability more or less feasible and what strategies are deployed by regimes to achieve greater accountability or alternatively greater reform The result is a more nuanced understanding of the different conditions and possibilities that countries face and the lesson that there is no one size fits all prescription that can be handed to transitional regimes

*Salut*, 1994 *From Memory to Marble* Elizabeth Rankin, Rolf Michael Schneider, 2020-02-10 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the Great Trek 1835-52 represents a crucial period of South Africa's past Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post-apartheid heritage The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument Based on unpublished documents drawings and models these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post-war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted The second volume expands on the first by investigating each of the twenty-seven scenes of the frieze in depth providing new insights into not only the frieze but also South Africa's history Françoise van Schalkwyk of African Minds co-publisher with De Gruyter writes *From Memory to Marble* is an open access monograph in the true sense of the word Both volumes of the digital version of the book are available in full and free of charge from the date of publication This approach to publishing democratises access to the latest scholarly publications across the globe At the same time a book such as *From Memory to Marble* with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page For this reason the book is likewise available in print as two separate volumes The printed and digital books should not be seen as separate incarnations each brings its own advantages working together to extend the reach and utility of *From Memory to Marble* to a range of interested readers For more material you can browse at Stanford's database Voortrekker Monumentality a digital archive [Gender and Rights](#) G. **BOOK JACKET      Beyond Human Rights and the War on Terror** Satvinder S. Juss, 2018-10-26 This edited collection provides a comprehensive insightful and detailed study of a vital area of public policy debate as it is currently occurring in countries across the world from India to South Africa and the United Kingdom to Australia Bringing together academics and experts from a variety of jurisdictions it reflects upon the impact on human rights of the application of more than a decade of the War on Terror as enunciated soon after 9 11 The volume identifies and critically examines the principal and enduring resonances of the concept of the War on Terror The examination covers not only the obvious impacts but also the more insidious and enduring changes within domestic laws The rationale for this collection is therefore not just to plot how the War on Terror has operated within the folds of the cloak of liberal democracy but how they render that cloak ragged especially in the sight of those sections of society who pay the heaviest price in terms of their human rights This book engages with the public policy strand of the last decade that has arguably most shaped perceptions of human rights and engendered debates about their worth and meaning It will be of interest to researchers academics practitioners and students in the fields of human rights law criminal justice criminology politics and international studies      *South Africa* Murray Faure, Jan-Erik Lane, 1996-08-15 The Republic of South Africa RSA held its first fully democratic elections in April 1994 They were a highly visible signal that the RSA is really moving from the era of apartheid towards a democratic constitutional state The process is an archetypal case of a negotiated transition of a regime and as such it is of great interest to students of constitutional mechanisms The contributors to this book leading South African political scientists discuss the process the difficulties and the achievements in the transformation of the RSA's political and legal institutions They address various

aspects of constitutional design and their interactions with social forces They examine the new constitution the roles of president and executive the electoral party and parliamentary systems and the Constitutional Court They look at the public service at questions of labour and corporatism at the RSA's changing external relations and at the position of the armed forces The new government's Reconstruction and Development Programme of which so much is expected is seen to be particularly vulnerable to the pull of opposing forces
