International Journal of Clinical Pharmacology and Therapeutics ,1997 **Pediatric Hypertension** Joseph T. Flynn, Julie R. Ingelfinger, Tammy M. Brady, 2023-01-09 For the past 17 years Pediatric Hypertension has served as the definitive reference text on hypertension in children and adolescents Each edition has incorporated the latest research on the pathophysiology clinical significance and management of hypertension in the young and has incorporated the most current consensus guidelines on diagnosis and management The years since publication of the fourth edition have seen further advances in the field that merit publication of an updated expanded text including Analysis of the implications of updated hypertension guidelines on identification of youth at highest cardiovascular risk Additional data on the proximate effects of high blood pressure in children in adolescents Further understanding of the links between high blood pressure in youth and surrogate markers of adult cardiovascular disease The fifth edition is a readable informative text that provides a comprehensive guide to the diagnosis management and therapy of hypertension in children and adolescents and presents new data that very clearly indicate that the origins of adult cardiovascular disease are rooted in pediatric hypertension It will

as a result be very important for therapeutic decisions and will also be highly relevant for those in internal medicine who care for the millions of adults who have hypertension cardiovascular disease and kidney disease In this sense the book fulfills the longstanding goal of showing that hypertension that begins in childhood is important to track diagnose and treat and that the present understanding of adult hypertension necessitates the study of blood pressure in youth The fifth edition has a similar structural format to the prior editions and covers all aspects of pediatric hypertension from basic science research to the most recent clinical information **The Canadian Journal of Cardiology** ,1984* Index to Theses with Abstracts
