*Curriculum Change and Innovation* Yiu Chun LO 廖國祥, Shirley S. Y. Yeung 葉秀英, John T. S. Lam 林國榮, Anthony W. L. Leung 梁國榮, 2012-06-01 *Curriculum Change and Innovation* is an introductory textbook on Hong Kong's school curriculum. Written in an approachable style using illustrative case studies, the textbook provides an introduction to the basic concepts and theories of curriculum as a field of study. It also discusses how sociopolitical and economic changes as well as technology advancements help transform teachers' roles and reshape curriculum policies. The chapters cover a wide range of topics including curriculum design, planning, implementation, and evaluation. These discussions are included to help readers critically reflect on their roles as change agents in curriculum development. Shirley S. Y. Yeung is an assistant professor in the Department of Curriculum and Instruction at the Hong Kong Institute of Education. John T. S. Lam is an assistant professor in the Department of Curriculum and Instruction at the Hong Kong Institute of Education. Anthony W. L. Leung is an assistant professor in the Department of Curriculum and Instruction at the Hong Kong Institute of Education. Yiu Chun Lo is an associate professor of the Department of Curriculum and Instruction at the Hong Kong Institute of Education.

*Handbook of Prosocial Education* Philip M. Brown, Michael W. Corrigan, Ann Higgins-D'Alessandro, 2012-10-12 *Handbook of Prosocial Education* is the definitive theoretical, practical, and policy guide to the prosocial side of education, the necessary second side of the educational coin. Academic teaching and learning are the first side of education; however, academic success depends upon the structures and support of prosocial educational efforts, from promoting positive school climate to fostering student and teacher development to civic literacy and responsible and critical citizenship participation. The *Handbook of Prosocial Education* chapters, written by highly respected researchers and outstanding educators, represent the wide range of research-based prosocial interventions from pre-school through high school. The chapters explore and explain how prosocial education helps teachers create effective classroom learning environments to support the development of the whole student. Principals encourage positive school climate and superintendents work to improve the health and well-being of their systems. As readers will learn, when done well, prosocial education develops the capacities and competencies of students, teachers, and school administrators that lead to a more autonomous, positive self-concept, greater sense of purpose, more socially responsible behaviors, and increased connections between families, schools, and communities. This book pulls together in one place, for the first time, the various threads that create the prosocial education tapestry, making a compelling case for the necessity of changing national educational policy that continues to be ever more oriented to only the academic side of the educational coin, thus jeopardizing the foundational and historic purpose of educating our children for their full human development and participation in our democracy.

**History Education and National Identity in East Asia** Edward Vickers, 2013-09-13 Visions of the past are crucial to the way that any community imagines itself and constructs its identity.
