Objectives and Procedures in Civic Education Charles Clinton Peters,1930 *Civic Engagement Across the Curriculum* Richard M. Battistoni,2017-01-27 Civic Education Across the Curriculum offers faculty in all disciplines rationales and resources for connecting their service learning efforts to the broader goals of civic engagement

Campuses promoting engagement are beginning to tie service learning practices to their civic mission of preparing students for participation in a diverse democratic society There are however few resources for faculty especially those in fields not traditionally linked with civic education to think about how civic engagement might be incorporated into their own disciplinary perspectives and course goals This volume distills a wide range of disciplinary perspectives on citizenship into usable conceptual frameworks It provides concrete examples of course materials exercises and assignments that can be used in service learning courses to develop students civic capacities regardless of disciplinary area This volume will assist faculty in their own curricular work as well as enable them to combine their individual initiatives with others across their campus

Davies,1995 **Civic Education in Elementary Schools As** Arthur William Dunn,2015-07-08 Excerpt from Civic Education in Elementary Schools As Illustrated in Indianapolis Sir From the inception of the tax supported public school systems in the United States one of their most important functions has been to give the instruction and training necessary for the intelligent performance of the duties of citizenship Indeed this work of preparation for citizenship has been and is still one of the strongest arguments for making education a function of the State and in justification of the levying of taxes for the support of schools As the government and industrial and social life become more democratic the importance of this function of the schools becomes more evident and necessary and the means of giving the necessary instruction and training becomes keener and more general For several years the public schools of the city of Indianapolis have had a reputation for unusually good work in this direction Since example adds much to the effectiveness of theory and may be even more useful in results I requested Mr Arthur W Dunn the bureau s specialist in civic education to make a careful study of this work in these schools for the purpose of making a concise report of its more important features This Mr Dunn was the better able to do because of the fact that he was at one time connected with the schools of Indianapolis as director of instruction and training in civics The manuscript transmitted herewith is the result of this study I recommend that it be published as a bulletin of the Bureau of Education Respectfully submitted About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art
