Ghaly MD FACS, 2014-11-14 This book is my life story as a Coptic Christian raised in Egypt Where no one from my family has ever moved away for thousands of years through the rise and falls of ancient pharaohs and deep roots of ancient Christianity It is also the story of my parents raising 10 children since 1953 in an environment of extreme poverty where resources and opportunities were limited with unrelenting prejudice towards Christian minorities So I came to the United States the land of opportunity and became a prominent American neurosurgeon among the only 4000 active nationwide and the only one nationally and internationally to achieve five board certifications in five acknowledged medical disciplines I continue to practice and serve the mission set before me My home land was once prosperous and rich in history Over the centuries it joined the downfall of the majority of the developing countries of the world through its economic crises and injustices to many It was the land for the fathers of early Christians and the foundation for worldwide Christians Now the Coptic Christians are considered a minority constituting a mere 10% of the population and are joining the exodus of ancient Christians from their native African continent This book chronicles my journey from the land of history the land of my birth to the land of opportunity America It outlines the socioeconomic and political changes that Egypt has seen over the last century It is my hope that others may find inspiration and understanding of my culture through reading this book I owe it all to Christ the Lord my cherished parents my family and friends my teachers my mentors and especially my beloved patients

spaces practices and relationships that have been intentionally or unintentionally dismissed from academic and non academic studies articles reports and policy papers that investigate and debate the experiences of Coptic Orthodox Christians in Egypt By taking the Coptic identity and faith to bars liquor stores coffeehouses weed gatherings prisons casinos night clubs brothels dating applications and porn sites this book argues that airing out this dirty laundry points to the limits of victimhood and activist narratives that shape the representation of Coptic grievances and interests on both national and international levels By introducing misfits who exist in the shadows of the well studied Coptic rituals traditions miracles saints apparitions and street protests the book highlights the contradiction between the centrality of sin to the Coptic Christian tradition and theology on one hand and on the other hand the dismissal of lives that are dominantly labelled as sinful while simultaneously studying Copts as agents or victims of history and in today s Egyptian society Drawing on many years of fieldwork accompanied and preceded by periods the author spent as a student and a lay servant in different forms of services in the Coptic Orthodox Church the book acknowledges the recent anthropological work that is critical of how the secular West and its academia misrepresent God and His believers in the Middle East However the fact that this book extends its arguments from ethnographic confessions collected from who deal with God on a daily basis since their childhood it investigates the implications and consequences of inviting God to be part of an anthropological study that complicates aspects of repentance and salvation among the largest Christian minority in the Middle East

S. Hasan,2003-12-04 The Copts of Egypt are the largest Christian minority in the Middle East In recent years they have often figured in the news as victims of bloody attacks by Islamic militants Christians versus Muslims in Modern Egypt is the first study of Christian identity politics in contemporary Egypt S S Hasan begins by looking at how the Coptic generation of the 1940s and 1950s remembered recovered and imagined the ancient history of Christianity in Egypt in order to weld the Copts into a unified nation resistant to the growing encroachments of Islam She argues that this interpretation of history in which Egyptian martyrs figure prominently made possible the rebirth of the Coptic church and community in much the same way as the preservation of Hebrew and the historical memory of Jewish tribulations served the purpose of national reconstruction of the state of Israel The bulk of the book focuses on the period beginning with the

consecration of Pope Shenuda in 1971 Drawing on extensive interviews with church leaders clergy and others Hasan finds that during this period the responsibilities of the church for the welfare of the Coptic community grew immeasurably Church leaders arrogated to themselves the exclusive right to the political representation of their community and reconceived their role from the narrow care of souls to the promotion of economic and cultural efflorescence of the entire Coptic community The leaders of this revival she shows have nurtured a potent and distinctive religious culture with a sense of communal pride and identity in an environment in which they were increasingly exposed to discrimination and outright hostility
