Brennan, 2023-10-03 Educational Measurement has been the bible in its field since the first edition was published by ACE in 1951 The importance of this fourth edition of Educational Measurement is to extensively update and extend the topics treated in the previous three editions As such the fourth edition documents progress in the field and provides critical guidance to the efforts of new generations of researchers and practitioners Edited by Robert Brennan and jointly sponsored by the American Council on Education ACE and the National Council on Measurement in Education the fourth edition provides in depth treatments of critical measurement topics and the chapter authors are acknowledged experts in their respective fields Educational measurement researchers and practitioners will find this text essential and those interested in statistics psychology business and economics should also find this work to be of very strong interest Topics covered are divided into three subject areas theory and general principles construction administration and scoring and applications The first part of the book covers the topics of validation reliability item response theory scaling and norming linking and equating test fairness and cognitive psychology Part two includes chapters on test development test administration performance assessment setting performance standards and technology in testing The final section includes chapters on second language testing testing for accountability in K 12 schools standardized assessment of individual achievement in K 12 schools higher education admissions testing monitoring educational progress licensure and certification testing and legal and ethical issues The Paradigm Shift from a Linear Economy to a Smart Circular Economy Mansoor Alaali, Abdalmuttaleb M. A. Musleh Al-Sartawi, Arafat Salih Aydiner, 2025-07-28 The concept of the circular economy has attracted the attention of scholars researchers professionals and policymakers in recent years The notion is characterised as an economy that intends to keep products stocks work in progress and materials at their highest utility and value continually distinguishing between their technical and biological cycles It is devised as a continuous positive development cycle that reserves and improves natural resources optimizes outputs and minimizes supply chain related risks by overseeing limited stocks and renewable flows of the stocks Several

legislations and policies are being developed to motivate and integrate SDGs and net zero related approaches in companies among which the circular economy CE is gaining momentum due to its documented impact on the elements of the SDGs and net zero Efficient management of resources and utility via artificial intelligence is vital towards a smart circular economy by minimising waste losses pollution and extraction of virgin resources It is important to note that there is a difference between smart and traditional circular economies This book focuses on the former and makes distinctions in terms of how technology systems and solutions can be effectively and efficiently implemented This book The Paradigm Shift from a Linear Economy to a Smart Circular Economy The Role of Artificial Intelligence Enabled Systems Solutions and Legislations discusses the transition from linear to smart circular economy by dissecting the role of artificial intelligence and other technologies such as big data IoT and blockchain in such transformations The book further aims to provide a platform for researchers professionals and students to closely investigate discuss and examine the theories philosophies ontologies and the role of governments policymakers and businesses in supporting the transition to a smart economy via national initiatives fiscal policies and corporate governance The book highlights the need for collaborative efforts between various actors including the private and public sectors through cross disciplinary approaches to attain maintain and sustain a smart circular economy

Turks & Caicos Islands International Monetary Fund. Western Hemisphere Dept., International Monetary Fund. Monetary and Capital Markets Department, 2025-04-04 The IMF Caribbean Regional Technical Assistance Centre CARTAC conducted two technical assistance TA missions in the Turks and Caicos Islands TCI between January and March 2024 The missions aimed to strengthen the financial stability framework of the Turks and Caicos Islands Financial Services Commission TCIFSC by enhancing credit risk modeling stress testing and the Financial Stability Report FSR The first mission held from January 29 to February 2 2024 focused on reviewing the latest Financial Stability Report to enhance its analytical depth and clarity The mission also worked on developing sectoral credit risk models to assess the impact of macroeconomic scenarios on bank non performing loans NPLs In addition training was provided to TCIFSC staff on advanced credit risk modeling techniques The second mission conducted from March 11 to 15 2024 focused on building a multi factor multi period bank solvency stress testing tool tailored to TCI s financial sector The mission reviewed available macroeconomic and regulatory data to refine stress test assumptions and conducted training sessions for TCIFSC staff on implementing the new framework An illustrative stress test was performed using December 2023 data incorporating baseline and adverse macroeconomic scenarios The calibrated macroeconomic models considered key risks particularly those associated with tourism dependent credit exposures and external economic shocks The mission provided several key recommendations to enhance the financial stability framework in the Turks and Caicos Islands The Financial Stability Report should be further developed to improve risk communication and streamline its content Institutionalizing regular stress testing exercises was recommended to improve the monitoring of financial resilience while expanding financial data collection and management through the

development of a centralized financial stability database would support ongoing macroprudential analysis The mission also emphasized the need for increased coordination between the TCIFSC and the Ministry of Finance for scenario development in stress testing The implementation of these recommendations will significantly enhance the monitoring of financial stability in the Turks and Caicos Islands and support efforts to strengthen macroprudential oversight and systemic risk management
