

STAAR Review Study Guide

Student Handout

Print this study guide for your students. Fill it out in sections as a class mini lessons during your STAAR review unit OR have students complete independently!

Industrialization is the use of machinery and use of scientific advancements in manufacturing, usually dangerous for today's students.

- used to make economic growth in the United States
- developed the new system for manufacturing goods
- allowed workers without much education to work machines
 - many workers were women, children, immigrants
- industrialization brought innovation when others used of the factories were forced to work hard

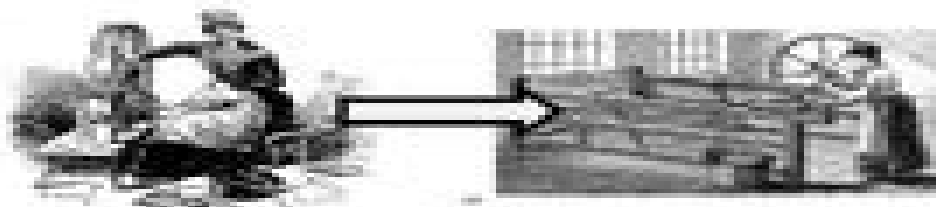

Small town before industrialization

City after industrialization

- increased technology that other countries

Industrialization made things – CHEAPER, FASTER, AND MORE EFFICIENT!

3 Colonial Regions

Label all the 3 colonial regions on the map – shade in:
New England Colonies: Green

Middle Colonies: Yellow

Southern Colonies: Red

If you do not have these colors, shading any color is fine as long as they are distinctly different.

- The 13 colonies were located along the Atlantic Coast and relied on water trade and transportation.
- Appalachian Mts.:** Western border of the colonies shown on the map
- Atlantic Ocean:** Eastern border of the colonies. Shaded on the map to the colonies that had no geography determined how the colonies earned money.

Teacher Key

Includes a separate key with answers and visuals! Use this as a teacher key – OR print sections to use for in class review.
