2. Does the student's IEP contain standards-based (TEKS-based) goals indicating the modified content the student requires in order to access the grade-level or course curriculum?

Federal regulations require that all students have access to and be assessed on the state-mandated curriculum. Every IEP should reflect access to the state-mandated grade-level or course curriculum, the Texas Essential Knowledge and Skills (TEKS). Students who access the grade-level or course TEKS through modifications may receive instruction that changes, lowers, or reduces learning expectations. IEP goals that indicate modified content should be specific to the student's area of need, addressing how the content will be modified so that the student can acquire the necessary skills to continue progressing in the grade-level or course curriculum. The IEP goals could include how the grade-level or course content is simplified or scaffolded to facilitate student understanding. The IEP goals do not have to incorporate the entire grade-level or course TEKS verbatim.
