Ss Scapa Flow Sinking Report:

Nightmare at Scapa Flow H.J. Weaver, 2012-09-28 A historian examines what really happened when the British World War II battleship was torpedoed by a German submarine off the coast of Orkney Sinking the battleship HMS Royal Oak in the Royal Navy's home anchorage with the loss of more than 800 of her crew was Germany's first shattering blow against Britain during World War II Within six weeks the Germans achieved their goal of breaching the defenses of Scapa Flow Germany claimed the sinking for the submarine U 47 commanded by Lt Gunther Prien Prien and his crew instantly became folk heroes exploited to extract the maximum glory from their deed A few months later Prien's autobiography *Mein Weg Nach Scapa Flow* was published and sold an astonishing 750 000 copies However there are Royal Oak survivors who while accepting that their ship was torpedoed say Prien and his crew could never have seen the inside of Scapa Flow because Prien's story differs from the truth Much has been written on what is now one of the greatest submarine exploits of all time Yet nobody has managed to sift fact from falsehood and reconcile the apparently irreconcilable German and British stories Author H J Weaver has interviewed Royal Oak survivors members of U 47's 1939 crew Lt Prien's widow and members of the firm that published his autobiography Weaver's quest for the truth led through England Northern Ireland Wales Scotland Orkney Norway West Berlin Cologne Freiburg and even distant Amman Every point of controversy he has patiently investigated until he was able to set down the documented definitive account of the Royal Oak naval disaster in this book **U-47 in Scapa Flow** Angus Konstam, 2015-10-20 At the outset of World War II Scapa Flow was supposed to be the safe home base of the British Navy nothing could penetrate the defences of this bastion So how in the dead of night was Gunther Prien's U 47 able to slip through the line of protective warships to sink the mighty Royal Oak This book provides the answer with an account of one of the most daring naval raids in history Drawing on the latest underwater archaeological research this study explains how Prien and his crew navigated the North Sea and Kirk Sound to land a devastating blow to the British It reveals the level of disrepair that Scapa Flow had fallen into and delves into the conspiracy theories surrounding the event including an alleged cover up by the then First Sea Lord Winston Churchill **The Watery Grave** Richard Osborne, 2015-10-30 In 2002 the wreck of a British cruiser was located by divers off the coast of Tunisia The stunning photographs of the wreck inspired Dr Richard Osborne to delve into the controversy surrounding the loss of one of the Royal Navy's proudest ships HMS Manchester After taking part in the Norway campaign of 1940 Manchester was sent to the Mediterranean where she was involved in the dangerous Malta convoys On her first convoy she was struck by a torpedo and badly damaged In danger of sinking at any minute her skipper Captain Harold Drew managed to save his ship Her next operation was to prove her last In Operation Pedestal the vital Malta relief convoy Manchester was again hit by a torpedo This time rather than risk the lives of his crew Drew decided to scuttle his ship For this Drew was court martialled in what would become the longest such case in the history of the Royal Navy Using the testimony of those involved the highly respected naval historian Dr Osborne pieces

together one of the most intriguing stories to emerge from the Second World War Coupled with photographs of the wreck and a detailed account of its discovery *The Watery Grave The Life and Death of HMS Manchester* will shed new light on this remarkable tale

Shipbuilding & Shipping Record, 1923 *Battleship Ramillies* Ian Johnston, Mick French, 2014-06-15 HMS Ramillies was the last battleship to join the Grand Fleet in 1917 and survived to fight in the Second World War Although the ship did not make headlines she was actively employed from start to finish and even survived being torpedoed by a Japanese submarine In this respect she was typical rather than extraordinary but like any large ship to her crew she was unique she was certainly the only ship in British naval history whose captain wore a grass skirt into battle honoring a Maori belief that the ship would come to no harm while he did so Ramillies survived the war This book produced with the full cooperation of the HMS Ramillies Association is a tribute to the ship in words and photographs deftly assembled from a combination of interviews with surviving crew members and carefully researched diaries and written accounts by those connected with the ship including HRH the Duke of Edinburgh for whom Ramillies was his first ship Many personal photo albums were unearthed to provide previously unpublished illustrations which add a further dimension to a vivid picture of naval life in an almost forgotten era
