Antony,2007-08-08 Atheists are frequently demonized as arrogant intellectuals antagonistic to religion devoid of moral sentiments advocates of an anything goes lifestyle Now in this revealing volume nineteen leading philosophers open a window on the inner life of atheism shattering these common stereotypes as they reveal how they came to turn away from religious belief These highly engaging personal essays capture the marvelous diversity to be found among atheists providing a portrait that will surprise most readers Many of the authors for example express great affection for particular religious traditions even as they explain why they cannot in good conscience embrace them None of the contributors dismiss religious belief as stupid or primitive and several even express regret that they cannot or can no longer believe Perhaps more important in these reflective pieces they offer fresh insight into some of the oldest and most difficult problems facing the human mind and spirit For instance if God is dead is everything permitted Philosophers without Gods demonstrates convincingly with arguments that date back to Plato that morality is independent of the existence of God Indeed every writer in this volume adamantly affirms the objectivity of right and wrong Moreover they contend that secular life can provide rewards as great and as rich as religious life A naturalistic understanding of the human condition presents a set of challenges to pursue our goals without illusions to

act morally without hope of reward challenges that can impart a lasting value to finite and fragile human lives This Atheists R Us compilation differs markedly in tone from Hitchens and Dawkins Excellent fare for Christian small groups whose members are genuinely interested in the arguments raised by atheists Christianity Today Rather than the foolishness of Dawkins or Hitchens these essays are compelling and sophisticated arguments that religious people ought to confront Tikkun Taken as a group these readable personal and provocative essays make it clear that there are many kinds of non believers and even many different elements that make up a single skeptical outlook Contrary to the popular image atheism isn t all rebellious trumpets and defiant drums That part of the orchestra is essential but here we have all the varieties of unreligious experience a full symphony of unbelief Free Inquiry This collection strikes me as an excellent example of how comprehensible philosophical writing can be at its best By and large the essays are written in a clear and direct style free of philosophical jargon Many who read it will find themselves also engaged at a level that is not merely academic George I Mavrodes Notre Dame Philosophical Reviews **The Living Church** ,1958 *120 Traditional Stained Glass Patterns* Ed Sibbett,1988-01-01 Gathers stained glass patterns suitable for boxes mirrors mobiles lightcatchers and windows *Popular Science* ,1986-03 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Popular Science** ,1985-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Popular Science* ,1972-05 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Speak, Silence** Kim Echlin,2021-03-02 WINNER OF THE 2021 TORONTO BOOK AWARD NOMINATED FOR THE 2022 EVERGREEN AWARD From the internationally bestselling and Giller shortlisted author of The Disappeared an astounding poetic novel about war and loss suffering and courage and the strength of women through it all It s been eleven years since Gota has seen Kosmos yet she still finds herself fantasizing about their intimate year together in Paris Now it s 1999 and working as a journalist she hears about a film festival in Sarajevo where she knows Kosmos will be with his theatre company She takes the assignment to investigate the fallout of the Bosnian war and to reconnect with the love of her life But when they are reunited she finds a man and a country altered beyond recognition Kosmos introduces Gota to Edina the woman he has always loved While Gota treads the precarious terrain of her evolving connection to Kosmos she and Edina forge an unexpected bond A lawyer and a force to be reckoned with Edina exposes the sexual violence that she and thousands of others survived in the war Before long Gota finds her life entwined with the community of women and travels with them to The Hague to confront their abusers The events she covers and the stories she
