Stalking The Herd Unraveling The Cattle Mutilation Mystery:

Stalking the Herd Christopher O'Brien, 2020-02-01 Who or What is Behind the Cattle Mutilations The cattle mutilation phenomenon is an ongoing mystery that has endured for almost 50 years What have we learned if anything from the countless reports filed Who or what is behind the death and disfigurement of livestock reported as mutilated around the globe Are these deaths simply attributable to natural predators and scavengers Or is the military government somehow involved perhaps monitoring mad cow disease Are the deaths the action of ritual cultists as police say the evidence would suggest Is it possible that alien predators are involved as some researchers and the media have suggested Are black helicopters or UFOs related to the cattle mutilation phenomenon as many witnesses have claimed Regardless of who or what is responsible what are the motivations behind perpetrating what may be the greatest unsolved serial crime spree of all time Stalking the Herd addresses these questions in depth and also offers an objective look at the history of our venerated relationship with cattle the first domesticated livestock Is there a connection between these ritualistic cattle deaths and humankind's ancient practice of animal sacrifice Why are there no Brahman cattle mutilations in India where cattle are revered to this day Are aliens gathering genetic material for unknown purposes What about the thousands of pounds of scientific forensic evidence Are some hidden sections of the military conducting secret projects that for some reason known only to them involve the mutilation of hundreds of cattle in an area that includes Colorado Springs the NORAD command base inside Cheyenne Mountain and the strange little town called Dulce on a small Apache Reservation

Cheap Land Colorado Ted Conover, 2022-11-01
From Pulitzer Prize finalist and National Book Critics Circle Award winning author of *Newjack* a passage through an America lived wild and off the grid where along with independence and stunning views come fierce winds neighbors with criminal pasts and minimal government and medical services In these dispatches Conover invites readers to ride shotgun along an unraveling edge of the American West where sepia-toned myths about making a fresh start collide with modern modes of alienation volatility and exile In a nation whose edges have come to define its center this is essential reading Jessica Bruder author of *Nomadland* *Surviving America in the Twenty First Century* In May 2017 Ted Conover went to Colorado to explore firsthand a rural way of life that is about living cheaply on your own land and keeping clear of the mainstream The failed subdivisions of the enormous San Luis Valley make this possible Five-acre lots on the high prairie can be had for five thousand dollars sometimes less Conover volunteered for a local group trying to prevent homelessness during the bitter winters He encountered an unexpected diversity veterans with PTSD families homeschooling addicts young and old gay people people of color lovers of guns and marijuana people with social anxiety most of them spurning charity and aiming and sometimes failing to be self-sufficient And more than a few predicting they'll be the last ones standing when society collapses Conover bought his own five acres and immersed himself for parts of four years in the often contentious culture of the far margins He found many who dislike the government but depend on its subsidies who love their space but nevertheless find themselves in each other's business who are generous but wary of thieves who endure squalor but appreciate beauty In their struggles to survive and get along they tell us about an America riven by difference where the edges speak more and more loudly to the mainstream

controversy Abductees very often report being followed and spied upon by military and government personnel It is typical for abductees to see black helicopters hovering directly over their homes in an intimidating manner Phone calls are monitored Emails are hacked into Strange men dressed in black suits are seen photographing the homes of the abductees All of this brings us to the matter of what have become known in the domain of alien abduction research as Military Abductions or MILABS According to numerous abductees after being kidnapped by aliens they are kidnapped again by the government These follow up events are the work of a powerful group hidden deep within the military and the intelligence community It is the secret agenda of this highly classified organization to figure out what the so called Grays are really up to And the best way for the government to get the answers is to interrogate those who have come face to face with the UFO phenomenon the abductees Why is the government secretly compiling files on alien abductees Is the alien abduction issue so sinister that it has become a matter of national security proportions
