

The Cold War Heats Up

1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly produce satellites that were better. They could improve delivery of aid.	They were worried about the loss of U.S. technology when U.S. tech people came to Europe. Europe, planned under the control of General Douglas MacArthur.
3. Would anyone challenge U.S. power?	Not really.	Europe would be under Soviet control, and the U.S. would lose its monopoly.
4. Would the U.S. achieve other goals under the agreement?	Yes. The governments could be stronger. There'd be no communist victory.	Yes. American jobs that were important and would not lose to competition like Korea.

2. What do you think is likely to happen in the future regarding the agreement?

There (may) be some kind of middle.

Technology will be shared, but not really.

There'll be some. The government will probably go on.

There's a possibility of something else that will make it all better.
