

Pharmacology for nurses by Adams (5th ed) Unit 1 for Exam Questions and Answers

The nurse is teaching a pharmacology class to student nurses. What does the nurse include as key events in the history of pharmacology? Select all that apply.

1. Initial drugs included morphine, cocaine, and penicillin.
2. Early researchers used themselves as test subjects.
3. The initial intention of pharmacology was to relieve human suffering.
4. Modern pharmacology began in the early 1600s.
5. Pharmacologists synthesized drugs in the laboratory in the twentieth century. -

ANSWER Correct Answer: 2, 3, 5

The early roots of pharmacology included the application of products to relieve human suffering, and early researchers used themselves as test subjects. Initial drugs included morphine, colchicines, curare, and cocaine, but not penicillin. Modern pharmacology began in the early 1800s, not the 1600s. By the twentieth century, pharmacologists could synthesize drugs in the laboratory.

The student nurse asks the nursing instructor why he needs to take anatomy and physiology, as well as microbiology, when he only wants to learn about pharmacology. What is the best response by the instructor?

1. "Because pharmacology is an outgrowth of those subjects."
2. "You must learn all, since those subjects, as well as pharmacology, are part of the curriculum."
3. "Knowledge of all those subjects will prepare you to provide the best patient care, including the administration of medications."
4. "Because an understanding of those subjects is essential to understanding pharmacology." - ANSWER Correct Answer: 4

It is essential for the nurse to have a broad knowledge base of many sciences in order to learn pharmacology. The nurse must learn anatomy, physiology, and microbiology to understand pharmacology, not because they are part of the curriculum. Pharmacology is an outgrowth of anatomy, physiology, and microbiology, but this is not the reason for the nurse to learn them. Knowledge of anatomy, physiology, and microbiology prepares the nurse to understand pharmacology, not to provide care such as administration of medications.

The nursing instructor is teaching a pharmacology class to student nurses. The current focus is pharmacology and therapeutics. The nursing instructor determines that learning has occurred when the students make which comments? Select all that apply.

Pharmacology For Nurses Exam Questions

Wilda Rinehart, Diann Sloan, Clara Hurd

Pharmacology For Nurses Exam Questions:
