Pharmacogenomics Implementation: From Concept to Practice Miriam Saiz-Rodríguez ,Fatih M. Uckun,2024-07-10 The field of pharmacogenomics has experienced an unprecedented and exponential progress in recent years Several pharmacogenomic biomarkers have been identified that have clinical practical value for the effective management of multiple pathologic disorders Pharmacogenomic biomarkers sometimes help estimate the therapeutic window for specific patient populations and thereby help maximize patient safety Translation of preclinical research discoveries in this expanding field into meaningful clinical diagnostic and therapeutic advances especially in the context of precision medicine is a focal point of contemporary research efforts A better understanding of the genetic and epigenetic influencers of clinical responses to therapeutic agents is of paramount importance On one hand much remains to be deciphered and discovered through

breakthrough research On the other hand existing information needs to be better disseminated to become part of the clinical decision process In addition there is a need for complementary health economics research to support the implementation of these validated biomarkers in routine clinical practice Ultimately these efforts are likely to improve treatment outcomes even in difficult to treat disease and provide the foundation for more effective personalized treatment strategies for a broad spectrum of illnesses

Index Medicus ,2004 Making Computerized Provider Order Entry Work Philip Smith,2012-09-19 Despite all the jokes about the poor quality of physician handwriting physician adoption of computerized provider order entry CPOE in hospitals still lags behind other industries use of technology As of the end of 2010 less than 22% of hospitals had deployed CPOE Yet experts claim that this technology reduces over 80% of medication errors and could prevent an estimated 522 000 serious medication errors annually in the US Even though the federal government has offered 20 billion dollars in incentives to hospitals and health systems through the 2009 stimulus the ARRA HITECH section of the American Recovery and Reinvestment Act of 2009 many organizations are struggling to implement advanced clinical information systems including CPOE In addition industry experts estimate that the healthcare industry is lacking as many as 40 000 persons with expertise in clinical informatics necessary to make it all happen by the 2016 deadline for these incentives While the scientific literature contains numerous studies and stories about CPOE no one has written a comprehensive practical guide like Making CPOE Work While early adopters of CPOE were mainly academic hospitals community hospitals are now proceeding with CPOE projects and need a comprehensive guide Making CPOE Work is a book that will provide a concise guide to help both new and experienced health informatics teams successfully plan and implement CPOE The book in a narrative style draws on the author s decade long experiences of implementing CPOE at a variety of academic pediatric and community hospitals across the United States
