competing for the same market as one does better the other has to do worse The authors creative leap is to suggest one can beat the competition by not competing Companies should avoid confronting competitors in crowded marketplaces what they call red oceans and instead seek out new markets or blue oceans Once the blue oceans have been identified companies can get down to the task of creating unique products which exploit that market Chan and Mauborgne argue for example that a wine company might decide to start appealing to a group previously uninterested in wine This would be a blue ocean market giving the winemaker a huge advantage which they could exploit by creating a wine that appealed to the tastes of a beer drinking demographic A classic of business writing Blue Ocean Strategy is creative thinking and problem solving at its best
