Roberts Classic Dab Manual:

The Big Book of Classic Fantasy Ann Vandermeer, Jeff VanderMeer, 2019-07-02 A FINALIST FOR THE 2020 WORLD FANTASY AWARD Unearth the enchanting origins of fantasy fiction with a collection of tales as vast as the tallest tower and as mysterious as the dark depths of the forest Fantasy stories have always been with us They illuminate the odd and the uncanny the wondrous and the fantastic all the things we know are lurking just out of sight on the other side of the looking glass beyond the music of the impossibly haunting violin through the twisted trees of the ancient woods Other worlds talking animals fairies goblins demons tricksters and mystics these are the elements that populate a rich literary tradition that spans the globe A work composed both of careful scholarship and fantastic fun The Big Book of Classic Fantasy is essential reading for anyone who's never forgotten the stories that first inspired feelings of astonishment and wonder INCLUDING Stories by pillars of the genre like the Brothers Grimm Hans Christian Andersen Mary Shelley Christina Rossetti L Frank Baum Robert E Howard and J R R Tolkien Fantastical offerings from literary giants including Edith Wharton Leo Tolstoy Willa Cather Zora Neale Hurston Vladimir Nabokov Hermann Hesse and W E B Du Bois Rare treasures from Asian Eastern European Scandinavian and Native American traditions New translations including fourteen stories never before in English PLUS Beautifully Bizarre Creatures Strange New Worlds Just Beyond the Garden Path Fairy Folk and Their Dark Mischief Seriously Be Careful Do Not Trust Those Fairies *Subject Guide to Books in Print* ,2001 **Hyperspectral Remote Sensing** Ruiliang Pu, 2017-08-16 Advanced imaging spectral technology and hyperspectral analysis techniques for multiple applications are the key features of the book This book will present in one volume complete solutions from concepts fundamentals and methods of acquisition of hyperspectral data to analyses and applications of the data in a very coherent manner It will help readers to fully understand basic theories of HRS how to utilize various field spectrometers and bioinstruments the importance of radiometric correction and atmospheric correction the use of analysis tools and software and determine what to do with HRS technology and data *Crime Scenes* ,2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine themselves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing Such approaches can yield valuable insights Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision spareness realism are the qualities singled out for praise

The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche The role of the reader spectator and critic in conferring meaning is a crucial one

Industrial and Engineering Applications of Artificial Intelligence and Expert Systems

Manton Matthews, Don Potter, Moonis Ali, 2020-01-08 This book presents the Proceedings of the Tenth International Conference on Industrial and Engineering Applications of Artificial Intelligence and Expert Systems focusing on the theoretical aspects of intelligent systems research as well as extensions of theory of intelligent thinking machines

Substance Use Disorders in the U.S. Armed Forces Institute of Medicine, Board on the Health of Select

Populations, Committee on Prevention, Diagnosis, Treatment and Management of Substance Use Disorders in the U.S. Armed Forces, 2013-03-21 Problems stemming from the misuse and abuse of alcohol and other drugs are by no means a new phenomenon although the face of the issues has changed in recent years National trends indicate substantial increases in the abuse of prescription medications These increases are particularly prominent within the military a population that also continues to experience long standing issues with alcohol abuse The problem of substance abuse within the military has come under new scrutiny in the context of the two concurrent wars in which the United States has been engaged during the past decade in Afghanistan Operation Enduring Freedom and Iraq Operation Iraqi Freedom and Operation New Dawn Increasing rates of alcohol and other drug misuse adversely affect military readiness family readiness and safety thereby posing a significant public health problem for the Department of Defense DoD To better understand this problem DoD requested that the Institute of Medicine IOM assess the adequacy of current protocols in place across DoD and the different branches of the military pertaining to the prevention screening diagnosis and treatment of substance use disorders SUDs Substance Use Disorders in the U S Armed Forces reviews the IOM s task of assessing access to SUD care for service members members of the National Guard and Reserves and military dependents as well as the education and credentialing of SUD care providers and offers specific recommendations to DoD on where and how improvements in these areas could be made

The Big Book of Modern Fantasy Ann Vandermeer, Jeff VanderMeer, 2020-07-21 WORLD FANTASY AWARD WINNER A true horde of fantasy tales sure to delight fans scholars and even the greediest of dragons from bestselling

authors Ann and Jeff VanderMeer Step through a shimmering portal a worn wardrobe door a schism in sky into a bold new age of fantasy When worlds beyond worlds became a genre unto itself From the swinging sixties to the strange strange seventies the over the top eighties to the gnarly nineties and beyond into the twenty first century the VanderMeers have found the stories and the writers from around the world that reinvented and revitalized the fantasy genre after World War II The stories in this collection represent twenty two different countries including Russia Argentina Nigeria Columbia Pakistan Turkey Finland Sweden China the Philippines and the Czech Republic Five have never before been translated into English From Jorge Luis Borges to Ursula K Le Guin Michael Moorcock to Angela Carter Terry Pratchett to Stephen King the full range and glory of the fantastic are on display in these ninety one stories in which dragons soar giants stomp and human children should still think twice about venturing alone into the dark forest Completing Ann and Jeff VanderMeer's definitive The Big Book of Classic Fantasy this companion volume takes the genre into the twenty first century with ninety one astonishing mind bending stories A VINTAGE ORIGINAL
