Cambridge Antiquarian Communications , 1878 Joseph Smith's Translation Samuel Morris Brown, 2020-05-04 Mormonism's founder Joseph Smith claimed to have translated ancient scriptures He dictated an American Bible from metal plates reportedly buried by ancient Jews in a nearby hill and produced an Egyptian Book of Abraham derived from funerary papyri he extracted from a collection of mummies he bought from a traveling showman In addition he rewrote sections of the King James Version as a New Translation of the Bible Smith and his followers used the term translation to describe the genesis of these English scriptures which remain canonical for the Church of Jesus Christ of Latter day Saints Whether one believes him or not the discussion has focused on whether Smith's English texts represent literal translations of extant source documents On closer inspection though Smith's translations are far more metaphysical than linguistic In Joseph Smith's Translation Samuel Morris Brown argues that these translations express the mystical power of language and scripture to interconnect people across barriers of space and time especially in the

developing Mormon temple liturgy He shows that Smith was devoted to an ancient metaphysics especially the principle of correspondence the concept of as above so below that provided an infrastructure for bridging the human and the divine as well as for his textual interpretive projects Joseph Smith's projects of metaphysical translation place Mormonism at the productive edge of the transitions associated with shifts toward secular modernity This transition into modern worldviews intensified complexly in nineteenth century America The evolving legacies of Reformation and Enlightenment were the sea in which early Mormons swam says Brown Smith's translations and the theology that supported them illuminate the power and vulnerability of the Mormon critique of American culture in transition This complex critique continues to resonate and illuminate to the present day [Catholicism For Dummies](#) Rev. Quivik, 2023-04-13 This book calls Protestant churches and the ELCA in particular to a church wide conversation about racism It is a response to the 2019 book Dear Church by Lenny Duncan a former Lutheran pastor who is Black and who among other reparations calls for changing the church's worship in order to address segregated Sundays Changes in worship affect theological foundations Informed consideration is essential Because entering into life changing conversations requires vulnerability and commitment this book includes several narratives my life as a White woman and pastor the history of the Black church as defined by Black theologians the development of the liturgical renewal movement and my experiences as a professor navigating worship conflicts as my seminary struggled with financial constraints and a changing student body The seminary conflicts offered me

a window into how better to address racism inspired by the example of post WWII German truth telling and how some US Southern states have come to grips with the history of the Jim Crow South described in Susan Neiman's *Learning from the Germans* This book outlines a way forward for churches in responding to racism by encouraging healthy engagement with contentious relationships as a necessity for healing

Gender Differences and the Making of Liturgical History Professor Teresa Berger, 2013-06-28

Mapping uncharted territory in the study of liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including inter-sexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life

Arianism: Roman Heresy and Barbarian Creed Guido M. Berndt, 2016-04-15 This is the first volume to attempt a comprehensive overview of the evolution of the Arian churches in the Roman world of Late Antiquity and their political importance in the late Roman kingdoms of the 5th 6th centuries ruled by barbarian warrior elites Bringing together researchers from the disciplines of theology history and archaeology and providing an extensive bibliography it constitutes a breakthrough in a field largely neglected in historical studies A polemical term coined by the Orthodox Church the side that prevailed in the Trinitarian disputes of the 4th century C E for its opponents in theology as well as in ecclesiastical politics Arianism has often been seen as too complicated to understand outside the group of theological specialists dealing with it and has therefore sometimes been ignored in historical studies The studies here offer an introduction to the subject grounded in the historical context then examine the adoption of Arian Christianity among the Gothic contingents of the Roman army and its subsequent diffusion in the barbarian kingdoms of the late Roman world

Toward the Origins of Christmas Susan K. Roll, 1995 Christmas exerts an enormous attraction today even apart from its Christian character as a celebration of the incarnation of God in the Person of Jesus Even marginal or indifferent Christians crowd the churches on Christmas Eve and in highly commercialized and technologized Western societies the Christmas season is celebrated with enthusiasm Yet Christmas entered the calendar of

feasts relatively late by 336 C E and the reason for its introduction and quick spread remain speculative and based on fragmentary evidence Towards the Origins of Christmas addresses both the contemporary Western celebration of Christmas and its deep historical roots in the church of the fourth century The book presents a thorough investigation of the patristic texts and evidence cited by liturgical scholars in the late 19th and 20th centuries to support two main theories the Calculation theory and the History of Religions theory This historical research is set in the framework of the contemporary experience of Christmas the dynamics of time and the liturgical year the inculturation of liturgy and underlying elements of dualism and patriarchal power paradigms which linger beneath the often commercial and sentimental character of Christmas today Suzan K Roll was born in Clarence Center New York USA in 1952 She holds degrees in classical languages and pastoral theology and in 1993 received a Ph D from the Faculty of Theology of the Catholic University of Louvain Leuven Belgium summa cum laude with the gratulations of the jury She has taught and published in the field of liturgy sacraments pastoral theology and presently teaches at Christ the King Seminary Buffalo New York USA The Environmental Vision of Thomas Merton Monica Weis, 2011-05-01 Nature was always vital in Thomas Merton s life from the long hours he spent as a child watching his father paint landscapes in the fresh air to his final years of solitude in the hermitage at Our Lady of Gethsemani where he contemplated and wrote about the beauty of his surroundings Throughout his life Merton s study of the natural world shaped his spirituality in profound ways and he was one of the first writers to raise concern about ecological issues that have become critical in recent years In The Environmental Vision of Thomas Merton author Monica Weis suggests that Merton s interest in nature which developed significantly during his years at the Abbey of Gethsemani laid the foundation for his growing environmental consciousness Tracing Merton s awareness of the natural world from his childhood to the final years of his life Weis explores his deepening sense of place and desire for solitude his love and responsibility for all living things and his evolving ecological awareness
