Selderhuis,2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments The Statesman's Yearbook 2017 Palgrave Macmillan,2017-02-28 Now in its 153rd edition The Statesman s Yearbook continues to be the reference work

Capern, 2019-10-30 The Routledge History of Women in Early Modern Europe is a comprehensive and ground breaking survey of the lives of women in early modern Europe between 1450 and 1750 Covering a period of dramatic political and cultural change the book challenges the current contours and chronologies of European history by observing them through the lens of female experience The collaborative research of this book covers four themes the affective world practical knowledge for life politics and religion arts science and humanities These themes are interwoven through the chapters which

encompass all areas of women's lives: sexuality, emotions, health and wellbeing, educational attainment, litigation and the practical and leisured application of knowledge, skills and artistry from medicine to theology. The intellectual lives of women through reading and writing and their spirituality and engagement with the material world are also explored. It is essential reading for students and researchers of early modern history, the history of women and gender studies.

The Paradise Garden Murals of Malinalco Jeanette Favrot Peterson, 2014-07-03 Winner Charles Rufus Morey Award 1993 The valley of Malinalco, Mexico, long renowned for its monolithic Aztec temples, is a microcosm of the historical changes that occurred in the centuries preceding and following the Spanish conquest in the sixteenth century. In particular, the garden frescoes uncovered in 1974 at the Augustinian monastery of Malinalco document the collision of the European search for Utopia with the reality of colonial life. In this study, Jeanette F. Peterson examines the murals within the dual heritage of pre-Hispanic and European muralism to reveal how the wall paintings promoted the political and religious agendas of the Spanish conquerors while preserving a record of pre-Columbian rituals and imagery. She finds that the utopian themes portrayed at Malinalco and other Augustinian monasteries were integrated into a religious and political ideology that in part camouflaged the harsh realities of colonial policies toward the native population. That the murals were ultimately whitewashed at the end of the sixteenth century suggests that the spiritual conquest failed. Peterson argues that the incorporation of native features ultimately worked to undermine the orthodoxy of the Christian message. She places the murals' imagery within the pre-Columbian *tlacuilo* (scribe/painter) tradition, traces a Sahagún connection between the Malinalco muralists and the native artists working at the Franciscan school of Tlatelolco, and explores mural painting as an artistic response to acculturation. The book is beautifully illustrated with 137 black and white figures, including photographs and line drawings. For everyone interested in the encounter between European and Native American cultures, it will be essential reading.
