framework for water use in rice-based irrigation systems Wilfried Hundertmark,2003 The paper presents a framework for
water use in rice based irrigation systems which is based on linear programming LP This framework intends to facilitate
improved understanding of a system s internal and external conditions and the constraints to productive use of the available
land and water resources and thereby create a reference for the assessment of the physical economic and environmental
performance of a given system The framework is conceived as a tool that is used interactively in technical group sessions
with farmers system operators and extension workers where structured discussions lead to improved data confidence and
understanding of complex irrigation systems
