

5. Mounting the Machine

The Model 200 is equipped with a bottom window which is mounted on the power table (Fig. 11).

This bottom window requires no lubrication since the spindle runs in a precision-machined bushing.

This bottom window is stopped quickly by means of an adjustable cushion pad.

Mount the bottom window on the table so that its path will not contact the driving belt when the window is disengaged.

There are eight bottom or bottom window spindles **8**. Load the stopper from the front on pins **9** through thread guide **2** and clockwise around and tapered tapered shafts **3**. (Wind a few turns of thread on the bottom in clockwise direction.)

Start the bottom window by depressing engaging lever **4**. The bottom window will stop automatically when the bottom is full. The amount of thread to be wound on the bottom is regulated by turning lever **5**. Turn this screw clockwise for more thread, or counter-clockwise for less thread.

If the thread wound goes up at one end of the bottom, loosen screw **6** and adjust the tension bracket, as appropriate.

Wendy Gardiner

Pfaff Sewing Machine Instruction Manual 238 6x6:

PFAFF 90 - Instruction Book Artemis Publications - Vintage Manuals,2015-10-26 Instruction Book Manual Sewing Machine PFAFF 90 It is generally quite difficult to find again or merely to find the Instruction Book of a old sewing machine some are existing as PDF files for free or costly often stemming from old scanned handbooks and in fact not very practical with use That is why we republished the PFAFF 90 sewing machine Instruction Book by wanting it as close to the original document as possible although the make up is a little different and that the book has quite a different format We also wanted it more user friendly by adding some pages intended for your personal notes Note that PFAFF 90 and 91 machines are working in a quite similar way hence the instruction book of the PFAFF 91 republished in French could also be useful for you
