Nursing Care 10th Edition gives you the background you need to understand drugs currently on the market and those not yet released. This perennial favorite of students and teachers simplifies complex concepts while distinguishing need to know content from the material that is merely nice to know. The 10th edition includes updated drug content to reflect the very latest FDA approvals, withdrawals, and therapeutic uses, as well as corresponding updated nursing content. It also includes an updated prototype drugs section summarizing their major uses and an updated table detailing care throughout the lifespan of the patient. Additionally, each chapter ends with a nursing implications summary to help you fully understand the material and apply it to clinical nursing practice. Prototype Drugs features serve as a quick reference learning aid so you can apply your understanding to related drugs currently on the market as well as drugs that will be released in the future. UNIQUE Engaging writing style with clear explanations makes difficult pharmacology concepts easy to grasp and even enjoyable to learn. Nursing implications of drug therapy are integrated throughout the text to reinforce the integral relationship between drug therapy and nursing care. UPDATED Special Interest Topic boxes focus on currently trending issues in pharmacology, eliminating out-of-date content. Large print highlights essential need to know information, and small print indicates nice to know information. QSEN focus includes Patient-Centered Care Across the Life Span features highlighting safe and appropriate patient care during different phases of life. Safety Alert features emphasize the QSEN competency relating to patient safety. Student-friendly features make learning easier with concise drug summary tables, chapter outlines, key points, and a visual guide to the prototype drugs in each class. Concise drug summary tables present detailed information for individual drugs, including drug class, generic and trade names, dosages, routes, and indications. Selected Canadian drug names are indicated with a maple leaf icon throughout the text. Separate Bioterrorism chapter discusses the clinical manifestations and treatment of biological weapon attacks. NEW Thoroughly updated drug content reflects the very latest FDA drug approvals, withdrawals, and therapeutic uses, as well as corresponding updated nursing content. NEW Additional images included to accompany difficult concepts. NEW Inclusion of more student practice questions provide additional help for learning the material.
