Reports of Proceedings ... Boston (Mass.). City Council,1876 Policing Digital Crime Robin Bryant,2016-04-22 By its
very nature digital crime may present a number of specific detection and investigative challenges The use of steganography
to hide child abuse images for example can pose the kind of technical and legislative problems inconceivable just two
decades ago The volatile nature of much digital evidence can also pose problems particularly in terms of the actions of the
first officer on the scene There are also concerns over the depth of understanding that generic police investigators may have
concerning the possible value or even existence of digitally based evidence Furthermore although it is perhaps a cliché to
claim that digital crime and cybercrime in particular respects no national boundaries it is certainly the case that a significant
proportion of investigations are likely to involve multinational cooperation with all the complexities that follow from this This
groundbreaking volume offers a theoretical perspective on the policing of digital crime in the western world Using numerous
case study examples to illustrate the theoretical material introduced this volume examine the organisational context for
policing digital crime as well as crime prevention and detection This work is a must read for all academics police
practitioners and investigators working in the field of digital crime Maine Reports Maine. Supreme Judicial Court,1915
