Sculpture Part Ten Portraits is the least complete part of the collection especially as regards Roman portraits This had to be so because the number of extant Roman portraits is so large that even a fair selection from them would have been out of proportion to the other parts of the book No attempt therefore has been made to give portraits of all men of note The aim rather has been to select statues and busts which illustrate the development of portrait sculpture irrespective of the persons portrayed In Part Eleven Heads the specialist may miss some favorite specimens but here again the material from which to draw is so large that a rigid sifting process became necessary The principle followed was similar to that adopted for Part Ten Heads were included in the list when they illustrated the development of sculpture and often excluded although with considerable regret when their chief claim to attention was based on their pleasing appearance About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Roman Portraits Michael Milkovich, Worcester Art Museum, 1961 **Observations on Roman Portraiture** George Maxim Anossov Hanfmann, 1953 **Sculpture, Roman Portraits** Sculpture, [Greek & Roman Portraits](#) Anton Hekler, 1912 **Roman Portraits in Context** Jane Fejfer, 2008 The highest honour a Roman citizen could hope for was a portrait statue in the forum of his city While the emperor and high senatorial officials were routinely awarded statues strong competition existed among local benefactors to obtain this honour which proclaimed and perpetuated the memory of the patron and his family for generations There were many ways to earn a portrait statue but such local figures often had to wait until they had passed away before the public finally fulfilled their expectations It is argued in this book that our understanding and contemplation of a Roman portrait statue is greatly enriched when we consider its wider historical context its original setting the circumstances of its production and style and its base which in many cases bore a text that contributed to the rhetorical power of the image
