Live Trace Visualization for System and Program Comprehension in Large Software Landscapes Florian Fittkau, 2015-12-03 In many enterprises the number of deployed applications is constantly increasing Those applications often several hundreds form large software landscapes The comprehension of such landscapes is frequently impeded due to for instance architectural erosion personnel turnover or changing requirements Furthermore events such as performance anomalies can often only be understood in correlation with the states of the applications Therefore an efficient and effective way to comprehend such software landscapes in combination with the details of each application is required In this thesis we introduce a live trace visualization approach to support system and program comprehension in large software landscapes It features two perspectives a landscape level perspective using UML elements and an application level perspective following the 3D software city metaphor Our main contributions are 1 an approach named ExplorViz for enabling live trace visualization of large software landscapes 2 a monitoring and analysis approach capable of logging and processing the huge amount of conducted method calls in large software landscapes and 3 display and interaction concepts for the software city metaphor beyond classical 2D displays and 2D pointing devices Extensive lab experiments show that our monitoring and analysis approach elastically scales to large software landscapes while imposing only a low overhead on the productive systems Furthermore several controlled experiments demonstrate an increased efficiency and effectiveness for solving comprehension tasks when using our visualization ExplorViz is available as open source software on www.explorviz.net

Additionally we provide extensive experimental packages of our evaluations to facilitate the verifiability and reproducibility of our results

The Dave Test Frederick W. Schmidt, 2013-10-15 What is the Dave Test Basic important raw questions you can ask yourself when someone you love is suffering in crisis unhinged maybe dying Before you even think about opening your mouth and blowing chunks of platitudes or running or minimizing the painful do the real work of living of being a friend take the Dave Test Roughly speaking the modern American mindset revolves around this life philosophy Minimize the painful or unwelcome Maximize the pleasant and satisfying If and when the painful or the

unwelcome happens run Dispense with it as quickly as possible and get back to feeling good But what if we learn to move past our comfort zones transcend our own lives and connect with those who suffer When we truly connect with others it is all but impossible to insulate ourselves from life s harsher realities This book is about the dangerous business of exposing our own fragile lives to the mortality of ourselves and others The Dave Test takes the demand for honesty plain talk and faith seriously
