Becker, 2011-09 13 Chilling Tales is a book of original short stories Most all of these tales were based on concepts that might possibly be expanded to novels Since the paranormal has many layers of interest this book samples a variety We have a vampire ghosts a werewolf the walking dead a gypsy a Ouija board time travel Bigfoot and even Death himself The endings will sneak up on you and are meant to shock or surprise Many of the characters involved might resemble people you know It is the author's intent to take you on a brief journey to visit things that we may never understand In some cases these places may seem familiar and the settings

realistic which makes it all the more frightening Many of these stories begin in the world of collectables where na ve individuals purchase items from people they don't really know They could be people who may have hidden motivations lying below the surface Then again it might be the item itself Who was the former owner Were they good or evil and still clinging to this item from the beyond All too often a person buys an antique or collectable and gets much more than they expected but when their realization takes place it is far too late As a bonus there is a 14th story The author dispels a true urban legend and ghost story Incredibly it is an urban legend that was created unintentionally by author himself An urban legend which he learned about 30 years later You will read 13 Chilling tales and experience a spectrum of entertainment Afterward you may never view a flea market antique fair garage sale or second store the same ever again Mitchell County Michael C.
