Trademark Research Guide:

Trademark Law and Theory Graeme B. Dinwoodie, Mark D. Janis, 2008 Boasting an impressive list of contributors this first edition of *Trademark Law and Theory* brings together a compilation of well written and powerfully argued works by leading international academics The book is certainly one of the most extensive and thought provoking overviews of contemporary trademark law and theory yet to be published Whilst all the contributions share in common their examination of the rapidity of change within trademark systems the editors should be commended on their generous seasoning of other cross cutting themes throughout the Handbook This fascinating compendium enriches our understanding of the shape substance and form of trademark law and theory this Handbook is perhaps a rare exception to the adage that no book can be all things to all men Its broad sweep approach and cross cutting themes enable a range of interested parties such as policymakers academics in the fields of marketing business consumer psychology in addition to the usual suspects to dip in and out of the Handbook as they wish a unique and erudite collection of essays concerning trademark law and theory Odette Hutchinson

Communications Law Trademarks is an area of vital practical everyday concern and the idea of producing a volume that brings together the perspectives of 19 thoughtful and experienced legal scholars is a bold and exciting initiative The present volume does not disappoint and the two editors are to be congratulated on orchestrating an ensemble that simultaneously informs and stimulates The title is apt it is truly contemporary and is highly theoretical and doctrinal in character while the interesting choice of the word handbook suggests clearly that this is a work in progress a snapshot at a particular time of the challenging lines of individual research that each contributor to the volume is undertaking It is a fine addition to a larger series of research handbooks in intellectual property published by Edward Elgar under the series editorship of Jeremy Phillips The editors have done a fine job in presenting this material in such a clear and coherent fashion this is an excellent and rewarding volume of readings that will be of interest to anyone working in the area of trademarks whether as an academic or as a practitioner Indeed for the practitioner it will be of particular value in that it contains and opens up many areas of inquiry that may not always be apparent when working at the coalface of a particular problem For both kinds of readers the real value of the volume is to have so many different kinds of perspectives brought together within the space of a single volume this is a handsome production the publishers and editors are to be commended on the clarity and cleanness of the typeface and headings the thoroughness of the index and the accuracy of their proof reading It has also been given a striking and evocative cover Sam Ricketson University of Melbourne Law School Australia European Intellectual Property Review *Trademark Law and Theory* is a first rate exploration of the issues that will dominate trademark law in the 21st century Authors from five continents provide a truly global perspective on the present and future of trademark law An exceptional collection of contributors and contributions Robert Denicola University of Nebraska US This compendium is an excellent source of writing on all aspects of trademark law and practice by experts from Europe the United States South
