**Bullets** Richard Middleton,2005 People have long been shooting small stones and carefully rounded bullets of clay glass steel and lead from weapons without using gunpowder And the bow and arrow has been man s choice all over the world and throughout history at times when modern firearms have been unavailable or unsuitable In America there is currently an explosion of interest in making primitive archery tackle wooden bows flint arrowheads natural fiber strings The author has made and shot flint tipped arrows from many bows of his own making He first noticed twenty years ago that no one has written a book on catapults and started to keep records of his own experiments in that and other related fields leading to this book which explores many of the ways old and new in which people have shot bullets by force of their own muscles      The Practical Guide to Man-Powered Weapons and Ammunition Richard Middleton,2007-10-17 David slew Goliath with his slingshot for millennia that was the norm as men used a variety of non explosive weapons to fire small stones and carefully

rounded bullets of clay glass and even steel and lead This unusual study explores in practical detail the many ways old and new in which man shot projectiles without recourse to gunpowder They include the bow and arrow a favorite for the last 10 000 years pump up air guns blowpipes catapults and homemade lead musketballs There s information on ammunition and velocity as well as a lively personal narrative filled with humor and the spirit of experimentation *The Art of Making Selfbows* Stim Wilcox,2009-06 This book is meant to be understandable and fun to use The topics range from the beginnings to the end cutting and curing wood through building a selfbow of almost any type and finishing it Selfbows are wooden bows with no laminations in the limbs Both beginners and advanced bowyers should find the book usable and worthwhile There are extensive descriptions and directions throughout supported by over 200 individual color illustrations Besides the how to directions there are sections on heat bending splicing billets shaping handles and treating problems like knots cracks etc Several other useful topics are addressed such as suggestions on how to make a bow with only a few measurements reduce handshock eliminate stack stabilize arrow flight shoot where you look and increase arrow speed **Bulletin of Primitive Technology** ,1999 How to Survive Anywhere Christopher Nyerges,2014-08-15 Whether you re in an urban suburban rural or wilderness environment this book has all the information you need to survive a disaster This book contains practical tips for anyone anywhere in almost any survival situation **The SAGE Handbook of Visual Research Methods** Luc Pauwels,Dawn Mannay,2019-12-10 The second thoroughly revised and expanded edition of The SAGE Handbook of Visual Research Methods presents a wide ranging exploration and overview of the field today As in its first edition the Handbook does not aim to present a consistent view or voice but rather to exemplify diversity and contradictions in perspectives and techniques The selection of chapters from the first edition have been fully updated to reflect current developments New chapters to the second edition cover key topics including picture sorting techniques creative methods using artefacts visual framing analysis therapeutic uses of images and various emerging digital technologies and online practices At the core of all contributions are theoretical and methodological debates about the meanings and study of the visual presented in vibrant accounts of research design analytical techniques fieldwork encounters and data presentation This handbook presents a unique survey of the discipline that will be essential reading for scholars and students across the social and behavioural sciences arts and humanities and far beyond these disciplinary boundaries The Handbook is organized into seven main sections PART 1 FRAMING THE FIELD OF VISUAL RESEARCH PART 2 VISUAL AND SPATIAL DATA PRODUCTION METHODS AND TECHNOLOGIES PART 3 PARTICIPATORY AND SUBJECT CENTERED APPROACHES PART 4 ANALYTICAL FRAMEWORKS AND PERSPECTIVES PART 5 MULTIMODAL AND MULTISENSORIAL RESEARCH PART 6 RESEARCHING ONLINE PRACTICES PART 7 COMMUNICATING THE VISUAL FORMATS AND CONCERNS **Medieval Warfare: Technology, Military Revolutions, and Strategy** Clifford J. Rogers,2024-08-06 This volume explores the topics of military revolutions strategy and tactics both separately and as they relate to each other It makes important contributions to

understanding European warfare in the Early High and especially the Late Middle Ages as well the military transition to the Early Modern Period Readers will find detailed analysis of how technological and non technological developments interacted to effect major changes in how wars were fought across the period The evolution and capabilities of the English longbow and of early gunpowder artillery are examined in depth Changes in the tools of war naturally affected plans to employ those tools to achieve political ends military strategy but strategy was never dictated by technology That point is illustrated by examinations of English efforts to conquer Wales the Anglo Burgundian alliance of the late Hundred Years War and the economic factors shaping medieval conquests in general The nine studies in the volume have all been published previously but a new introduction shows how they fit together particularly explaining how they collectively rebut common critiques of Rogers s controversial thesis that European warfare was reshaped by the Infantry and Artillery Revolutions during the era of the Hundred Years War Two of the chapters have been substantially expanded so that the versions printed here should be the ones consulted and cited in the future by scholars of medieval warfare and military revolutions

*Bows and Arrows of the Greenland Thule Culture (1200-1900 AD)* Sebastian J. Pfeifer, 2021 This book deals with the regional diversity and chronological development of the archery technology of the Thule culture in Greenland Archaeological and ethnographic material in the collections of the Nat Mus of Denmark is analyzed

Cultural Evolution Peter J. Richerson, Morten H. Christiansen, 2013-11-01 Leading scholars report on current research that demonstrates the central role of cultural evolution in explaining human behavior Over the past few decades a growing body of research has emerged from a variety of disciplines to highlight the importance of cultural evolution in understanding human behavior Wider application of these insights however has been hampered by traditional disciplinary boundaries To remedy this in this volume leading researchers from theoretical biology developmental and cognitive psychology linguistics anthropology sociology religious studies history and economics come together to explore the central role of cultural evolution in different aspects of human endeavor The contributors take as their guiding principle the idea that cultural evolution can provide an important integrating function across the various disciplines of the human sciences as organic evolution does for biology The benefits of adopting a cultural evolutionary perspective are demonstrated by contributions on social systems technology language and religion Topics covered include enforcement of norms in human groups the neuroscience of technology language diversity and prosociality and religion The contributors evaluate current research on cultural evolution and consider its broader theoretical and practical implications synthesizing past and ongoing work and sketching a roadmap for future cross disciplinary efforts

crossbow is an iconic weapon of the Middle Ages and alongside the longbow one of the most effective ranged weapons of the pre gunpowder era Unfortunately despite its general fame it has been decades since an in depth history of the medieval crossbow has been published which is why Stuart Ellis Gorman s detailed accessible and highly illustrated study is so valuable The Medieval Crossbow approaches the history of the crossbow from two directions The first is a technical study of the design and construction of the medieval crossbow the many different kinds of crossbows used during the Middle Ages and finally a consideration of the relationship between crossbows and art The second half of the book explores the history of the crossbow from its origins in ancient China to its decline in sixteenth century Europe Along the way it explores the challenges in deciphering the crossbow s early medieval history as well as its prominence in warfare and sport shooting in the High and Later Middle Ages This fascinating book brings together the work of a wide range of accomplished crossbow scholars and incorporates the author s own original research to create an account of the medieval crossbow that will appeal to anyone looking to gain an insight into one of the most important weapons of the Middle Ages     Field & Stream ,2000-10
